- BIOSCIENCES
- COMPLEMENTARY MEDICINE
- NUTRITION

UNDERGRADUATE OPEN DAY

Our open days provide an excellent insight into university life from both an academic and social perspective. They present an opportunity for you to find out more about our courses, living accommodation and facilities, and to look around the Cavendish Campus.

There will be a comprehensive programme of:

- Presentations
- Campus tours
- Drop-in information desks

This programme will help you to plan your day. Details of events, presentations and tours are included, so that you can make the most of your visit.

Talks and presentations

There will be various subject presentations throughout the day. These are run by course leaders and academics to allow you the opportunity to meet the staff. Please refer to the programme (see opposite) for more information.

Information desks

There will be information desks in the Reception area where you will find staff and students available to discuss your future studies.

Finance officers, student housing representatives and admissions staff will be available throughout the day to answer any queries you may have about financing your time at university, housing, and the admissions process.

Student ambassadors

We have an experienced team of student ambassadors who will be on hand to look after you throughout the event. All our ambassadors are students at the University of Westminster and they will guide you to where you want to go, answer any questions you may have and tell you about our Cavendish Campus.

Tours

Tours will be available throughout the open day. The assembly point for the tours will be at Reception. Simply join a group there, and a student ambassador will take you on a tour of our campus and facilities, sharing with you what student life is all about.

Food and drink

Refreshments, snacks and lunch can be purchased throughout the day in the Café. There are also vending machines located on campus.
