

ORIENTATION WEEK

Postgraduate Construction Studies Programme

2018/19

FULL-TIME

Welcome to the Postgraduate Construction Studies Programme

We are pleased to welcome you to our postgraduate courses **MSc Construction Project Management, MSc Construction Commercial Management and MSc/Diploma/Certificate in Building Information Management** here at the University of Westminster. You will be joining well established courses and we are confident that you will find it both rewarding and enjoyable. The courses are delivered by a team of academic staff who have a wealth of experience in construction education. Staff members are highly qualified and have extensive professional experience in the construction industry and in academia.

You are embarking on a course of study which requires a significant commitment. Combining your studies with the other demands of a busy life and family obligations can be very challenging. However, the staff teaching on your course are experienced in dealing with the expectations of students, and the University's learning resources have been set up to be highly accessible and the course is designed to be flexible in terms of the delivery.

The first 'learning week' is the week commencing 24th September and the first class will be on Monday evening at 6pm.

Prior to the commencement of your course there is an **Orientation Event**, which takes place on **Thursday 20th September 2018** from **1.00pm until 4.30pm** in **Room M220** here at the **Marylebone Campus**. The purpose of the orientation event is to introduce you to the course and to allow you to meet your fellow students and some of the staff who will be teaching you. You will also be introduced to some of the important resources which you will use during your studies, and you will formally enrol as a student on the course and you will register for the modules you will be taking (if you have not already enrolled). Enrolment and module registration are necessary to gain access to the University and to online resources.

It is essential that you attend the Orientation Event.

If you miss the orientation event you will also miss out on vital information and you will be at a disadvantage when teaching commences the following week.

We look forward to meeting you in September.
