Designing Narrative Experiences

Module Code: 5WSEL010W

Level 5

Semester 2

Location: Regent

UK Credit Value: 20

**Equivalent Credit Value: US Credits 4 /
ECTS credits 10***

Narratives are critical for understanding the world in which we live. This module focuses on how we can use narrative to achieve the impact that will make a difference to a range of professional and organisational settings. The module encourages students to develop an interdisciplinary project which showcases how narrative (and the careful construction of stories) helps to convey meaning around a given topic. Collaborating with your fellow students you will research, explore and experiment with possibilities for developing narratives that communicate that strategic objectives of a topic. You will develop your narrative through a range of perspectives (including visual, textual or spoken presentation). This module allows you to apply narrative (and story-telling) to a range of different contexts.

Module Code: 5WSEL020W

Level 5

Semester 2

Location: Regent

UK Credit Value: 20

**Equivalent Credit Value: US Credits 4 /
ECTS credits 10***

This module will demonstrate how utilising the transformative and empowering tools of positive psychology can enhance professional well-being and contribute to personal and professional success. The identification and assessment of strengths, perceived as the foundation for personal development and performance management will be explored, as well as a successful alignment of strengths with personal goals and their attainment. This will be complemented by an investigation of happiness (or positive well-being) in all areas of life. Theoretical perspectives on 'flow' and 'engagement' will also be examined and techniques of coaching psychology for enhancing positivity will be practice. This module is ideal for those students who wants to develop positive strategies of resilience, innovation and creativity to achieve success. Students will engage with different perspectives of positive organisational behaviour, especially as they relate to developing strategies for success within a workplace environment.

Commercial Skills

Module Code: 6FAMN006W

Level 6

Semester 2

Location: Harrow

UK Credit Value: 20

**Equivalent Credit Value: US Credits 4 /
ECTS credits 10***

This module has been provided to give the student insight into the commercial aspects of retailing from "start-up" strategy through planning and to trading. At the core of this module is the business game. This is an interactive simulation that looks at the risks and opportunities attached to business operations. It is a team exercise and each

team must make a number of decisions concerning the set-up, management and eventual profitability of “their company”. These decisions will be effected by the P.E.S.T.L.E. factors. These factors may change whilst the game is running. The final result of the game is relatively unimportant to the learning from the module, the essential point of running the game is to allow the student to begin to make the link between their individual input to the team, the team decisions and the impact on their “business”. So far as possible the game has been designed to replicate the real business and trading environment of a retail unit and to include the factors and decisions that have to be made on a daily basis when trading a product in the retail environment. In order to support the business game lectures and activities will examine the key skills associated with the making of commercial decisions
