Who is this guide for?

This guide is for students coming to study a full-time course at the University of Westminster, or continuing their studies at the University, who are either funding their own studies, are funded by their parents, have a US study loan, have Official Financial Sponsorship or are using a combination of any of these.

This guide is written specifically for students submitting their application from inside the UK who will be using the ID Check app as a part of their application. **Not everyone can apply for a Student visa in the UK. If you are not sure about your own eligibility, see [our website](#) for more information or contact [Student Advice](#).**

The ID Check app is available to most in-country applicants. If you cannot use the app, you will need to attend a biometrics appointment and we prepared an alternative visa application guide for you which you can access from [our website](#).

This guide explains how to set up a Home Office online account and gives tips about completing the Student Visa application form. It does not cover all the Student Visa rules and requirements, it does not list all the documents needed and does not explain how to complete the application if you are applying to bring dependants.

We believe this information to be correct at the time of writing in April 2025.

Before you apply

You must make sure you have read and understood all the Student Visa requirements and have all the correct documents in the correct format before you complete your visa application. Use the resources below.

[Westminster University Visa Pages](#)

[Official Student Visa Guidance](#)

[Government Website – General Information on Student Visa](#)

Prepare your documents

Check that your [documents](#) meet the Student Visa requirements and get a [CAS](#) (Confirmation of Acceptance for Studies). A CAS is issued by the University.

The application form is completed online, paid online, and submitted electronically. The date your application is submitted is the date you pay the visa application fee. You must meet the Student Visa requirements on this date. This means that your accompanying documentation must also meet the Student Visa requirements on this date. Bank statements used to prove funds must show the required amount of money has been maintained in the account continuously for at least 28 consecutive days before the application fee is paid.

Make sure to read about the [financial requirements](#) on our website. If you are submitting your visa application inside the UK and on the day you pay your visa application fee you have lived in the UK for at least 12 months with a valid visa, you will meet the financial requirement automatically. In all other cases, you must still meet the financial requirement.

Request your CAS

[CAS](#) is a mandatory document for the Student visa application, even if you are applying to extend your visa to continue the same course. Continuing students will request CAS by contacting the Student Centre.

New students must first accept the course offer and, in most cases, pay a [tuition fee deposit](#). If you will be attending the pre-session course, you must pay the full fee for that course. Exceptions may apply for students awarded a full University of Westminster scholarship or who have a US or Canadian study loan.

New students will apply for a CAS via the [Applicant Portal](#). You need to complete a Visa Check task and CAS Request task. You will need to submit your passport details, qualifications, and details of any previous UK visas or UK study. The passport you submit must be the passport you will use to apply for your visa.

You can apply for your visa once you have your CAS and are within three months of your course start date. You need the CAS number for your visa application and the course information provided on CAS is essential for the completion of the visa application form.

Consider timeframes

You must submit the application before your current visa expires. Most in-country visa applications are processed within 8 weeks of submission or attending a biometrics appointment, if required.

Latest date to enrol on your course: You will find the latest date to enrol listed on your CAS under the section 'Latest Date to Enrol'. This is the last date that you will be able to join your course. Depending on the type of your previous visa, you may be permitted to enrol on your course with a pending Student visa application. However, in some cases, you will need to have your Student visa granted before being able to enrol on the course (e.g. those applicants who currently hold a Graduate Route visa). If you are unable to enrol by the given deadline, you will not be able to join your course and your Student visa will need to be cancelled.

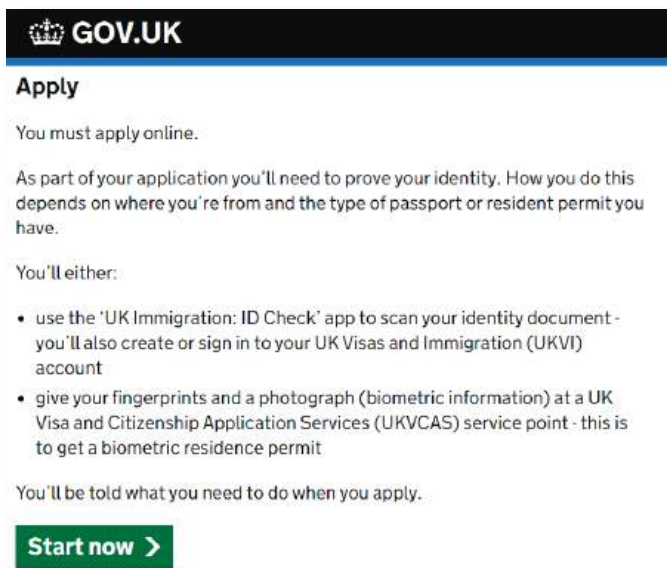

If you do not think you will be able to enrol at the University by your latest date to enrol on your course, it is important to liaise with the Admissions Office, you may have to defer your offer to the next academic intake.

If your visa is granted but you do not enrol in time, your visa will be reported to the Home Office and cancelled. You will not be able to use this visa to study a deferred course – you will need to get a new CAS and apply again.

Student Visa Application Process

The visa application fee is £524. There will be additional costs for priority applications. The Student Immigration Health Surcharge is £776 per year and £388 for up to 6 months.

When completing the online application form, you will need to confirm your identity. This will normally be possible with the use of the [ID Check app](#), as explained later in this guide. However, if for some reason you are not able to use the app or choose not to use it, you will need to book and attend a biometrics appointment at a UKVCAS centre. In such case, the visa application process will be different and you should refer to an alternative visa application guide for applicants who are not using the ID Check app, which you can find on [our website](#).

The screenshot shows the GOV.UK 'Apply' page. At the top is the GOV.UK logo. Below it is the heading 'Apply'. The text states: 'You must apply online.' followed by 'As part of your application you'll need to prove your identity. How you do this depends on where you're from and the type of passport or resident permit you have.' Then it says 'You'll either:' followed by a bulleted list: '• use the 'UK Immigration: ID Check' app to scan your identity document - you'll also create or sign in to your UK Visas and Immigration (UKVI) account' and '• give your fingerprints and a photograph (biometric information) at a UK Visa and Citizenship Application Services (UKVCAS) service point - this is to get a biometric residence permit'. Below the list, it says 'You'll be told what you need to do when you apply.' At the bottom is a green button with the text 'Start now >'.

GOV.UK

Apply

You must apply online.

As part of your application you'll need to prove your identity. How you do this depends on where you're from and the type of passport or resident permit you have.

You'll either:

- use the 'UK Immigration: ID Check' app to scan your identity document - you'll also create or sign in to your UK Visas and Immigration (UKVI) account
- give your fingerprints and a photograph (biometric information) at a UK Visa and Citizenship Application Services (UKVCAS) service point - this is to get a biometric residence permit

You'll be told what you need to do when you apply.

Start now >

Starting your application

To access the visa application form, go to www.gov.uk/student-visa/extend-your-visa.

Scroll down the page and click the button 'Start now' under the heading 'Apply', as shown on the screenshot.

This will commence your application.

BETA This is a new service.

Where are you planning to live?

England, Scotland, Wales or Northern Ireland

Jersey, Guernsey or the Isle of Man

Continue

Do you have a current EU, EEA or Swiss passport?

The EEA includes the EU countries and Iceland, Liechtenstein and Norway

Yes

No

Continue

The first question will ask where you are planning to live.

Confirm that you are planning to live in England.

Next question will ask about the nationality listed on your passport. If you have an EU, EEA or Swiss nationality, please confirm. Otherwise, answer 'no'.

If you answer 'yes', please see the next page.

If you answer 'no', please go directly to page 10.

Confirm your identity

You will need a passport with a biometric chip.

Scan your passport and upload a photo of yourself

To confirm your identity, you will use the free UK Immigration: ID Check app to scan your passport with a biometric chip and upload a photo of yourself.

If you are applying for someone else, the applicant needs to confirm their identity - you can help them use the app.

If you cannot use the app to confirm your identity

You will need to go to a visa application centre after you apply instead. Visa application centres are not available in all countries.

Continue

Does your passport have a biometric chip?

If your passport has a biometric chip, it will have this symbol:

☐ Yes ☐ No

Continue

EU/EEA/Swiss nationals will see the next two questions.

Other nationals, please go to the next page (p.10).

Next: Confirm your identity.

As a part of the visa application process, you need to confirm your identity.

This page explains that you may be able to use an app on your phone and confirm your identity by scanning your passport and taking a picture of yourself.

Read the information and click Continue to proceed.

Next: Does your passport have a biometric chip?

Check the cover page of your passport to see if it has a biometric chip and answer accordingly.

If your passport does not have a biometric chip, you will not be able to use the ID Check app, as you will not be able to scan your passport through the app. You will still be able to submit the online application form, but you will also need to visit a visa application centre to confirm your identity. If this is the case, answer 'No' and refer to a separate visa application guidance for those who are applying from the UK without the use of ID Check app.

Do you have a UK biometric residence permit (BRP)?

You will need your BRP to confirm your identity. If you have lost your BRP, select No.

☐ Yes ☐ No

Continue

Non-EU/EEA/Swiss nationals only

If you **do not** have an EU, EEA, or Swiss passport, you will be asked if you have a BRP card.

You must have the actual BRP card (not a photo of it) to answer 'yes'. If your BRP is expired but you still have the card, you will answer 'yes'.

If you never had a BRP or your BRP is lost, answer 'no'.

Has your biometric residence permit (BRP) expired?

This means your BRP 'valid until' date is in the past.

☐ Yes ☐ No

Continue

When did your biometric residence permit (BRP) expire?

☐ It expired less than 18 months ago
☐ It expired more than 18 months ago

Continue

Next: Has your biometrics residence permit (BRP) expired?

Most BRPs expired by the end of 2024, as we now use electronic visas (e-visas). If your BRP card is expired, you will answer 'yes'.

Please note: your actual visa (e-visa) should still be valid if you are applying for a Student visa in the UK. If your e-visa has also expired, you should contact [Student Advice](#) without further delay.

Next: When did your BRP expire?

If your BRP card expired within the last 18 months, you will be asked if you previously attended a biometrics appointment as a part of a visa application process, and whether your name is the same on your BRP and on your current passport. If you answer 'yes' to all these questions, you may be able to use the ID check app as a part of the application process.

If the answer to any of the questions is 'no', you won't be able to use the ID Check app; in such a case, you will need to attend a biometrics appointment in person instead and will need to use an alternative guide (see next page).

Check you can use the app

You can use the app on:

- an iPhone 7 or newer models
- an Android phone with near-field communication (NFC)

Check the phone's settings to see if it has NFC. The phone has NFC if you can use it to make contactless payments.

If you do not have a phone

Ask a friend or family member if you can use their phone. No information is stored on the app or phone after you close it.

You do not have to apply on the phone - you can do the rest of your application on your computer or another device.

We will send your decision letter by email - this can be your email or someone else's. You do not use your decision letter to prove your status.

If you do not have a phone or cannot receive your decision letter by email

You cannot use the app to prove your identity and you will have to apply a different way.

You will need to book an appointment to have your fingerprints and photo taken after you apply

If you are applying outside the UK

Your appointment will be at a visa application centre.

Check if there is a [visa application centre](#) near you. Visa application centres are not available in all countries. You may also need to pay for some services.

If you are applying in the UK

Next: Check you can use the app

You will now arrive at a page asking you to check if you can use the app.

Read the information and make sure you have access to a device which will allow you to use the app.

If for any reason you are not able to use the ID Check app, you will need to follow an alternative guide to the visa application process. You can find the guide on [our website](#).

Read through the information on this page and click *Continue* to proceed.

Next: If you do not have a phone or cannot receive your decision letter by email.

You will only see this screen if you cannot use the ID Check app. If this is the case, you will need to attend an appointment at an application centre after submitting your online application.

This guide is for applicants using the ID Check app. If you cannot use the app, please refer to a separate visa application guidance on [our website](#) for those who are applying from inside the UK without the use of the ID Check app.

What are your course fees for your first year?

Enter the amount stated on your CAS.

Have you or your parent(s) or legal guardian(s) already paid any of your course fees?

If you have made any payment to the University for your fees (this includes the payment of the deposit, if applicable), you should answer 'Yes' to this question. [See if you are required to pay the CAS deposit.](#)

Your CAS should show the same amount as you enter on the application form. You should ensure that all the tuition fees you have paid are shown on your CAS. However, pre-sessional students with a CAS for the pre-sessional course only will not have the deposit payment listed on their first CAS.

'How can you prove this amount has been paid?'

You should select that 'My sponsor has confirmed this information on my CAS'. We do not advise that you present receipts as evidence of your payments.

If the CAS details are not correct, e.g., you have paid more, contact the Visa Compliance team to get your CAS amended before you continue further with your visa application, if possible.

Next: Student Loan

If you answer 'Yes' to this question, you will be asked 'Have you already received your student loan?'

You can only rely on a loan letter if your loan is from:

- Your national government
- Your state/ regional government
- A government sponsored student loan company
- Part of an academic or educational loan scheme

Your loan must be available to you before you travel to the UK or paid directly to the University before you travel to the UK, with any living cost portion of the loan being made available to you by the time you arrive in the UK.

If your loan is provided by your national government, the loan must be available before you start your course.

English language ability

Do you have a medical condition which prevents you from taking the English language test?

This series of questions will ask about your English language assessment. The University has to confirm your English language ability on your CAS.

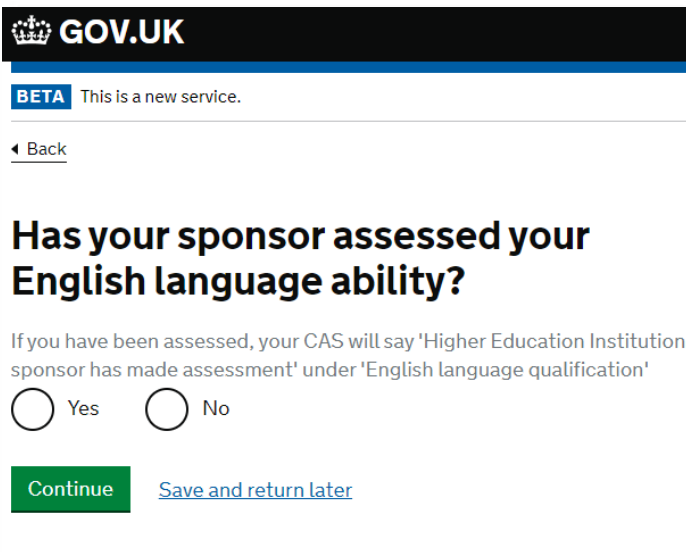

If you have a medical condition which prevents you from taking the English language test and you have an official letter from a doctor confirming that and the University is aware of the condition, select 'yes'. Otherwise, select 'no'.

Next: Have you provided evidence of your English language ability in a previous application?

If you have previously been granted a Tier 4 or Student visa and have proven your ability to meet the language requirement at the correct level, choose 'yes'.

Please check your CAS to see how your English language ability was assessed.

If your CAS states that your English language has been assessed in another way, select NO and answer the following questions according to your situation.

The screenshot shows a GOV.UK form titled 'Has your sponsor assessed your English language ability?'. At the top, there is a 'GOV.UK' logo and a 'BETA' badge with the text 'This is a new service.' Below the title, there is a 'Back' link. The main question is 'Has your sponsor assessed your English language ability?'. Below this, there is a subtext: 'If you have been assessed, your CAS will say 'Higher Education Institution sponsor has made assessment' under 'English language qualification''. There are two radio buttons: 'Yes' and 'No'. At the bottom, there is a green 'Continue' button and a blue link 'Save and return later'.

Next: Has your sponsor assessed your English language ability?

If you answered 'no' to the previous question, you will be asked whether your CAS indicates that your English Language ability was assessed by your institution.

Check your CAS.

If you are applying for a visa to study at degree level or above, the answer should be **'Yes'** – please check your CAS to make sure it confirms this.

If you are applying for a Student visa for a Pre-sessional English Language course and have had to take a UKVI SELT, you will need to declare this.

If you answer 'no' to the above question, you will be asked a series of other questions to determine how your English language was assessed. Check your CAS for English language information and answer the questions in line with your circumstances. If asked whether the University of Westminster has a track record of compliance, the answer is 'yes'.

Next: Conditions

This page informs you that there will be certain conditions linked to your visa if your application is successful. To read more about Student visa conditions, please see [UKCISA website](#).

It also warns you what could happen if you stayed in the UK without permission (without a visa).

Read this information carefully. You will need to confirm you understand and accept the conditions.

Next steps

You have four further steps to complete:

Declaration

You will be asked to declare that all the information you have provided in your application is true.

After you have completed your declaration, you will not be able to change the answers or information you've provided.

Payment of the Immigration Health Surcharge

You will be directed to pay this if it applies to you.

Payment of the visa fee

When you pay your visa fee (or we confirm that you do not need to pay a fee) your application will be submitted.

Evidence upload

After you have gone through the payment section and submitted your application, we will tell you if you need to upload any evidence to support your application. We will also tell you how much time you have to upload your evidence.

[Continue](#)[Save and return later](#)

Next: Next steps

You have now reached the end of this section. You will need to read and accept the declaration which will appear on the next page and then proceed to visa payments. You will not be able to change any answers once you complete the declaration, so please ensure all your answers are correct before proceeding.

DO NOT SUBMIT AND PAY FOR YOUR APPLICATION UNTIL YOU HAVE PREPARED YOUR SUPPORTING DOCUMENTS. YOU MUST PROVE THAT YOU MEET THE RULES ON THE DAY YOU APPLY FOR YOUR VISA (THE DATE YOU SUBMIT AND PAY FOR YOUR APPLICATION).

YOU MUST SUBMIT THE APPLICATION BEFORE YOUR CURRENT VISA EXPIRES.

Pay and submit application

You have now completed the main body of the application and will need to pay the Immigration Health Surcharge and then the visa application fee. Both payments are mandatory for most students. Failing to make the payment when required may result in your application being invalid.

Immigration Health Surcharge

You will first pay the Immigration Health Surcharge (IHS). It is currently £776 per year of the visa and £388 for any additional period that is 6 months or less. If you are studying a 3-year undergraduate course, you will pay £2716. You will pay £1164 for a 1-year postgraduate course. You should receive a receipt by email once you have made this payment.

The amount of IHS payable is calculated on the length of your visa, including any time granted before the start of your course and after the course end date. [Check how much you'll need to pay.](#)

Visa application fee

You will then pay the visa application fee. This is £524 for the standard processing service. You should keep copies of receipts for both payments.

The standard service usually takes 8 weeks, although it can occasionally take longer.

Your application is considered as submitted once you have paid the visa application fee.

Evidence Upload

Consider whether you need to upload any supporting documents with your application. These will differ depending on your personal circumstances. There will be a document checklist on your visa application form.

If you have any issues uploading your evidence, please consult the [guide published by UK Visas and Immigration](#).

In order to proceed with your application, you must select '**confirm and upload**' – either to upload your evidence or confirm you do not have anything to upload. You should receive an email confirming the upload of the documents.

It is only after this step that your visa application will be put in a queue for processing.

Visa Centre Appointment

If you were unable to use the ID Check app to confirm your identity, or if for another reason you are required to attend a Visa Centre appointment, you will need to book a biometrics appointment in the last step of the visa application process. Please follow the instructions on your online application carefully.

After your Visa Application is submitted

Your visa application will be sent for consideration once you 'confirm and upload' your documents. In case you are required to attend a Visa Centre appointment, your application will only be considered after the appointment.

Waiting for the visa decision

Standard visa processing time for in-country applications is 8 weeks. Whilst your application is pending, you may be contacted to provide additional information: please make sure to check your email regularly (including spam) as there will be a deadline on providing additional evidence if requested.

You must not leave the UK whilst your application is pending. Leaving the UK will result in your application being withdrawn.

If your most recent visa expires whilst you are waiting for the outcome of your current visa application, your rights in the UK will be protected (you will not become an overstayer) as long as you submitted a **valid in-time application**.

An *in-time application* means that the application was submitted (paid for) before your most recent visa expired and *valid* means that the application met all the validity criteria, including providing a valid CAS.

If you do not receive an outcome on your application within 8 weeks, please contact Student Advice.

Receiving your visa

You will receive your visa decision by email. Please make sure to read this email carefully and save it for future reference. The email will outline the conditions of your visa: what you can and cannot do in the UK. It will also show the start and end date of your visa.

You will be granted with an e-visa which you can view using [Government website](#).

The length of your visa is determined by the length of your course. Your Student visa should be granted until the end of your course as stated on your CAS plus some additional time at the end:

- A course of 12 months or longer, + 4 additional months
- A course of between 6 months and 12 months, + 2 additional months*
- A course of less than 6 months, + 7 additional days*
- If your course is a pre sessional course, + 1 additional month

* If you are a continuing student and received a new CAS for a visa extension (for example, due to module retakes), your new visa should be granted based on the overall length of your course, not just the remaining period for which you are returning to your studies (e.g. if your original visa was granted with 4 months at the end, your extension – however short – should also be granted with 4 additional months after CAS end date).

Please check that your visa was granted for the correct length. If you spot any errors, you can report them on the [Government website](#).
