

**Template Consent Form (generic for all disciplines):**

Red font text is guidance which can be deleted or re-worded as appropriate for your research study and participant needs:

<ul style="list-style-type: none"> <li>• Study title, Research Ethics Committee review body name and research ethics committee reference number, name of PI and affiliation, any funder, and date it was written.</li> </ul>
<ul style="list-style-type: none"> <li>• <b>A statement that</b> the consent is being provided by the potential participant in light of the information provided by the investigators around the study which they understand.</li> </ul>
<ul style="list-style-type: none"> <li>• <b>A statement that the participant</b> understands that they may withdraw without negative consequence or reason provided.</li> </ul>
<ul style="list-style-type: none"> <li>• <b>A statement on any restrictions on withdrawal should be listed here</b> (e.g. I understand I can withdrawal up to X point in the study or after it has completed).</li> </ul>
<ul style="list-style-type: none"> <li>• You may or may not need to record the name of the participant as per the section below.</li> </ul>
<ul style="list-style-type: none"> <li>• The consent form could include a check box where the participant could indicated their permission to be contacted for future parts of this study or other similar studies.</li> </ul>
<ul style="list-style-type: none"> <li>• The consent form could be used to include a check box where the participant could indicate their permission for quotes to be attributed to the participant and an option not to agree to this but still participate, if practicable.</li> </ul>
<ul style="list-style-type: none"> <li>• Date of the consent being obtained (as below).</li> </ul>

I understand that I can withdraw fully or partially (as indicated above) at any time up until **XXX** without penalty by emailing **XXX at XXX**

**(if appropriate):**

**Name of participant:**

**Signature of Signature:**

**Date consent provided:**

<b>Note to researchers:</b>	
<b>For research involving human tissue (relevant material).</b>	Researchers must also see the SOP HTA 009 Consent on the University's <a href="#">HTA Information and Guidance Blackboard site</a> (University log-in required) for <b>additional</b> requirements.
<b>Other regulated research will have consent and participant information requirements.</b>	Please see relevant professional or regulatory guidance.  <a href="#">Health Research Authority website; consent guidance.</a>
<b>All research.</b>	Must be conducted in line with legal data protection regulations.  <a href="#">University Information Compliance website.</a>
