

eduroam profile tool for Windows 7/8/10 32 and 64bit

Check what version of Windows is running and then open the 32bit or 64bit exe.

Check for operating system info in Windows 7

1. Click the **Start** button , enter **Computer** in the search box, right-click **Computer**, then click **Properties**.
2. Look under **Windows edition** for the version and edition of Windows that your PC is running.

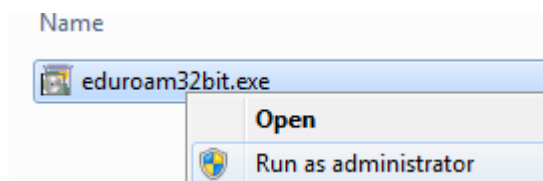

Check for operating system info in Windows 8.1 or Windows RT 8.1

1. Swipe in from the right edge of the screen, tap **Settings**, then tap **Change PC settings**.
(If you're using a mouse, point to the bottom-right corner of the screen, move the mouse pointer up, click **Settings**, then click **Change PC settings**.)
2. Tap or click **PC and devices**, then tap or click **PC info**.
3. Look under **Windows** for the version and edition of Windows your PC is running.
4. Look under **PC** for **System type** to see if you're running a 32-bit or 64-bit version of Windows.

Check for operating system info in Windows 8, Windows RT & Windows 10

1. On the Start screen, type **Computer**, press and hold or right-click **Computer** or **This PC** (Windows 10), then tap or click **Properties**.
2. Look under **Windows edition** for the version and edition of Windows that your PC is running.
3. Look under **System** for **System type** to see if you're running a 32-bit or 64-bit version of Windows.

-
1. Right-click on the appropriate eduroam file and select "Run as administrator"

2. The file will set up the necessary settings for connecting to the eduroam network and display a notification when installed.

Please Note:

The downloaded exe file does not install any drivers or software. It has been scripted to create a wireless profile with pre-defined settings for eduroam. However, by downloading and running the executable, users are reminded that the University does not take responsibility for any issues that may arise and therefore this is run at the device owner's risk.
