Note

This print-out is a condensed Word version of the full Cardbox for Windows entries compiled by Mike Theis in the mid 1990s. Examples of the full form are given on the first two pages. 'Printed matter' is itemised in the top half of the form (1.2) and 'other matter such as files, films, plans and maps is itemised in the lower half (2.2). The order of entries here has been maintained in the printout with double spacing between categories of information.

The 'box/item number' refers to the location on the numbered shelves in room 510b Marylebone Road Campus. The archive has since been removed from Room 510b to the University Archive at Little Tichfield Street. Until such time as the archive is professionally catalogued, this box/item number system has been retained for location purposes.

The original printout has been checked and reformatted into a searchable Word document by Michael Theis in November 2006.

12.1 box file damaged 1944-45 prefabricated steel house project designed in the Middlesbrough office for the British Iron and Steel Federation to generate work for Teesside. File labeled TSB [Teesside Bridge and Engineering Works] who did the working drawings for the prototype but then abandoned the project. Justin Blanco White and Nora Nicol did most of the original design work although the whole of the office made contributions. At the Town Hall exhibition an old Middlesbrough lady looked at the model with its 'though' front to back living room and commented dismissively 'And where do you put the coffin?' NOTE: box files and storage cases in boxes 12 - 14 are as they were when transferred to Victoria Square from the basement of the John street office where they were archived by Mrs Barren (ML's secretary).

Needs going through.

15.1 press cuttings 2 folders 230x360mm with 3 page typed index index of newspaper cutting books The set of newspaper cutting books in boxes 15 & 16 were compiled by Mrs Rowena Ramsey (ML's next door neighbour at 8 Victoria Square) and she also typed these index books. Books 1 (Armagh) and 2 (Australia) are missing at this first trawl but could well be elsewhere in the archive and when found should be joined with this set. Although accurate in her work RR did not have complete access to all the files so these books are not necessarily a complete coverage of their subjects. ML was a fanatic keeper of press cuttings and the rest of the archive should be searched so that these books do become as complete a record as possible of ML's considerable press cover over the years.

15.2 press cuttings blue 'newscuttings' book 270x390mm 20 leaves 1950-66 Bedford book labeled Bedford. 3; see summary 15.1

15.3 press cuttings green plain cover hard back 250x380mm 17 leaves 1964-68 Bognor, Camber, Torbay book labeled 'Bognor & other places. 4 [ML added] Torquay, Camber.' The large
number of cuttings on Bognor where ML was only marginally involved is due to his friendship with Paul Smith from the days when he was clerk of Redditch. see 15.1 summary.

15.4 press cuttings red 'newscuttings' book 270x390mm 30 leaves 1958-69 South America book labeled 'Brazil. 5 [ML added] and W.Indies. Many of these cuttings are from the S.American press. see 15.1 summary.
