How will you learn?

Learning methods

Skill and Knowledge Development through Course Design

The BA Business Management (Marketing) curriculum is intentionally structured to support students' development from foundational knowledge to advanced, career-ready capabilities, underpinned by contemporary business management and marketing concepts such as sustainability, ethical practice, and global responsibility.

At **Level 4**, modules focus on easing the transition into Higher Education, fostering independent learning, and introducing the fundamental business disciplines.

At **Level 5**, the emphasis shifts towards applying learning to real-world business challenges, developing analytical skills, and cultivating the ability to critically reflect on work experiences. In the second semester, students can choose to broaden their horizons through either a semester of study abroad or a 12-week work experience internship.

At **Level 6**, students consolidate and extend their expertise in strategy, organisational planning, leadership, and innovation. Core marketing modules build on the knowledge gained at Levels 4 and 5, enabling students to apply an analytical and strategic approach to marketing decision-making in practice, while addressing the evolving demands of a sustainable and socially responsible business environment.

The course offers an engaging and transformative learning experience, such as blended learning, problem-based learning, and hands-on practical activities and projects. Work-based and placement learning are embedded throughout the programme in line with the University's strategic priorities. Employability skills are explicitly developed and assessed in modules at every level, ensuring all students are equipped for graduate-level employment or further study.

Students are encouraged to actively monitor their progress, reflect on their personal and academic development, and evaluate their performance within a supportive and inclusive learning environment.

Teaching methods

Variety of Teaching Methods

Teaching on the BA Business Management (Marketing) course combines a wide range of methods to cater to diverse learning styles and to reflect the varied demands of the modern business environment. Students engage in lectures, seminars, interactive workshops, case study analysis, simulations, mentoring, and project-based assignments that encourage both independent and collaborative learning. Problem-based learning and live client briefs provide opportunities to apply theoretical knowledge to real business challenges.

Equality, Diversity and Inclusion (EDI)

We are committed to an inclusive approach to learning and teaching that empowers every student to achieve their full potential. Our curriculum and teaching practices are designed to embrace diverse perspectives, remove barriers to participation, and ensure all students can thrive. We nurture the development of essential transferable skills for both professional success and lifelong learning. Through a blend of independent study and collaborative teamwork, students gain the confidence and capability to draw on a wide range of resources, perspectives, and techniques, equipping them with the graduate-level skills needed to contribute effectively in a global and diverse business environment.

Learning Technology and Ethical Use of AI

Course materials are delivered electronically via the University's Virtual Learning Environment (Blackboard), enabling students to access resources anytime, anywhere, and on a range of devices. Blackboard supports interactive and collaborative learning through tools such as discussion boards, wikis, and blogs, ensuring students can connect with staff and peers in a flexible and inclusive way.

Our curriculum is designed to equip students with strong digital capabilities by integrating contemporary industry-standard software, including Google Analytics and Tableau, alongside the responsible and ethical use of Artificial Intelligence (AI) tools to enhance research, creativity, and problem-solving. Students gain practical experience in applying AI-powered platforms preparing them to work confidently in digitally transformed business environments. This approach ensures graduates leave with the technical proficiency, adaptability, and critical thinking skills needed to thrive in a rapidly evolving, technology-driven workplace.

Teaching Expertise

Our teaching is shaped by the latest research insights and real-world business practice. Many members of our teaching team are active researchers whose work contributes to advancing knowledge in marketing and business management. Others bring extensive professional experience from diverse industry sectors, offering students valuable practical perspectives. This blend of academic expertise and industry know-how ensures that teaching and learning activities are both intellectually rigorous and directly relevant to the contemporary business environment.

Assessment methods

Assessment Methods

The course uses a wide variety of assessments designed to develop graduates with strong commercial awareness, critical thinking, effective communication, self-motivation, resilience, and a responsible global outlook. Assessment types are selected to reflect diverse learning styles, reduce over-assessment, and equip students with a broad range of professional skills. Many assessments embed employability and use authentic tasks linked to real business challenges.

Assessment methods include coursework such as essays, reports, presentations, case studies, videos, podcasts, blogs, posters, and artefacts. The course also includes team-based assessments, supported by clear guidance on team formation, participation, and effective communication. All modules include either formative assessments or feed-forward support to help students reflect on feedback and enhance their performance, alongside summative assessments to measure achievement.

Course Structure

This section shows the core and option modules available as part of the course and their credit value. Full-time Undergraduate students study 120 credits per year. Course structures can be subject to change each academic year following feedback from a variety of sources.

Modules are described as:

- **Core** modules are compulsory and must be undertaken by all students on the course.
- **Option** modules give you a choice of modules and are normally related to your subject area.
- **Electives**: are modules from across the either the whole University or your College. Such modules allow you to broaden your academic experience. For example, where electives are indicated, you may choose to commence the study of a foreign language alongside your course modules (and take this through to the final year), thereby

adding further value to your degree.

- Additional information may also be included above each level, for example, where you must choose one of two specific modules.

Professional body accreditation or other external references

The Business Management (Marketing) BA Honours is accredited by the Chartered Institute of Marketing (CIM) with a Graduate Gateway programme status. After graduating, students will be exempt from the Level 4 "Applied Marketing and Planning Campaign" module towards the CIM Level 4 Certificate in Professional Marketing / Professional Digital Marketing qualification, and from the Level 6 "Marketing & Digital Strategy" module towards the CIM Level 6 Diploma in Professional Marketing qualification.

Course management

The Course is managed by a course team comprising the Course Leader and Year Leaders. In addition, the course team refers to:

Senior Personal Tutor (Westminster Business School)
Head of School

The BA Business Management (Marketing) degree has a designated Course Leader who you will meet during your first week and who is available for consultation during weekly office hours throughout the year or by appointment. You take modules, normally in common with students from your course. Each of these has a Module Leader who is responsible for the smooth running of that module. Module Leaders are usually available during term-time during their office hours or by appointment. At all levels of your university study you will have a Personal and Professional Development Tutor who will help and guide you through the complexities of life at University.

Academic regulations

The current Handbook of Academic Regulations is available at westminster.ac.uk/academic-regulations.

Course specific regulations apply to some courses.

Academic Support

Upon arrival, an induction programme will introduce you to the staff responsible for the course, the campus on which you will be studying, the Library and IT facilities and additional support available. You will be provided with a Course Handbook, which provides detailed information about the course. Each course has a course leader or equivalent. All students enrolled on a full-time course and part-time students registered for more than 60 credits a year have a personal tutor, who provides advice and guidance on academic matters. The University utilises a Virtual Learning Environment called Blackboard, where students access their course materials and can communicate and collaborate with staff and other students. Further information on Blackboard can be found at <https://www.westminster.ac.uk/current-students/studies/your-student-journey/when-you-arrive/blackboard>

The Academic Learning Development Centre supports students in developing the skills required for higher education. In addition to online resources in Blackboard, students can also attend Study Skills workshops and schedule one-to-one appointments. Further information on the Academic Learning Development Centre can be found at [westminster.ac.uk/academic-learning-development](https://www.westminster.ac.uk/academic-learning-development).

Learning support includes our libraries, each of which holds a collection of resources related to the subjects taught at that site. Students can search the entire library collection online through the Library Search service to find and reserve printed books, and access electronic resources (databases, e-journals, e-books). Students can choose to study in the libraries, which have areas for silent and group study, desktop computers, laptops for loan, photocopying and printing services.

Support Services

The University of Westminster's Student and Academic Services department provides a range of advice and guidance. Further information on the advice available to students can be found at <https://www.westminster.ac.uk/student-advice>

The University of Westminster Students' Union also provides a range of facilities to support students during their time at the University. Further information on UWSU can be found at <https://www.westminster.ac.uk/students-union>

How do we ensure the quality of our courses and continuous improvement?

The course was initially approved by a University Validation Panel. University Panels normally include internal peers from the University, academic(s) from another university, a representative from industry and a Student Advisor.

The course is also monitored annually by the College to ensure it is running effectively and that any issues that might affect the student experience have been appropriately addressed. Staff will consider evidence from various sources, including student surveys, student progression and achievement, and reports from external examiners, to evaluate the effectiveness of the course and make necessary changes.

Periodic reviews are also conducted to ensure that the curriculum remains up-to-date and that the skills acquired on the course continue to be relevant to employers. Representative students meet with a panel to provide feedback on their experiences. Student feedback from previous years is also part of the evidence used to assess the course's performance.

How do we act on student feedback?

Student feedback is important to the University, and student views are taken seriously. Student feedback is collected in various ways.

- Through student engagement activities at the course and module level, students have the opportunity to express their voice in the running of their course. Course representatives are elected to expressly represent the views of their peers. The University and the Students' Union work together to provide a full induction to the role of the course representatives.
- There are also School Representatives appointed jointly by the University and the Students' Union who meet with senior School staff to discuss wider issues affecting student experience across the School. Student representatives are also represented on key College and University committees.;
- All students are invited to complete a questionnaire for each module. The feedback from this will inform the module leader on the effectiveness of the module and highlight areas that could be improved.
- Final-year undergraduate students will be asked to complete the National Student Survey, which helps inform the national university league tables. Postgraduate students will be asked to complete the Postgraduate Taught Survey (PTES).

This programme specification provides a concise summary of the main features of the course and the learning outcomes that a student may reasonably be expected to achieve and demonstrate if they take full advantage of the learning opportunities provided.
