
UNIVERSITY OF WESTMINSTER
LET'S MAKE IT HAPPEN
POSTGRADUATE PROSPECTUS 2027

TOGETHER,

Turn your ambition into reality at the University of Westminster, a global university with London energy and home to endless opportunities.

LET'S MAKE IT HAPPEN

WELCOME TO WESTMINSTER

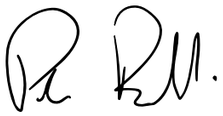

Welcome to Westminster – where discoveries are made, diversity is celebrated and everyone is welcome.

Our diverse community and unique location in one of the world's most dynamic, creative and innovative cities make us a truly global university with London energy. We help every student achieve their potential by providing personalised, practice-based education, developed in collaboration with industry partners. Our teaching is practical and responds to a rapidly changing world with courses that are employer driven and enriched by research. Our expert, professional teaching colleagues are committed to delivering high-quality learning experiences that equip you with the skills, confidence and knowledge you need to succeed.

You'll have access to an extensive range of career development opportunities, including job-skills training, award-winning mentoring schemes, and business and freelance start-up support for aspiring entrepreneurs. At the heart of this offer is Zone29, our flagship home for careers and enterprise, designed to help you explore opportunities, develop your ambitions and connect with employers, industry experts and innovators – during your studies and beyond graduation.

We'll support all aspects of your studies with comprehensive student services, sports facilities and social clubs to help you maintain your health and wellbeing, build networks and make lifelong friends. Whether you study full- or part-time, are from London or come to Westminster from one of over 160 countries around the world, you'll be part of a vibrant, welcoming community where you can bring your whole self, feel a true sense of belonging and graduate with the skills and aptitude to make a difference locally and globally.

Whatever your goal or ambition, we're here to help you make it happen.

Professor Peter Bonfield OBE FREng FIET
Vice-Chancellor and President

"Whatever your goal or ambition, we're here to help you make it happen and to welcome you into our wonderful Westminster community."

LONDON, HOME TO OPPORTUNITY AND DISCOVERY

London is ranked among the top three student cities in the world by the QS Best Student Cities 2026, attracting people from all over the world to live, work and study. It offers outstanding career opportunities and rich cultural experiences, with plenty of green spaces.

At Westminster you will find a diverse community of innovators, thinkers and problem-solvers working in partnership with an extensive network of businesses and professional organisations to provide first-class education and excellent opportunities to connect with employers.

This vibrant and exciting city has been our home since 1838.

LONDON, WHERE LEARNING COMES TO LIFE

Thanks to our central London locations you will be fully immersed in the city's business community. Our courses are developed in collaboration with industry and enriched by events, visits, live projects and guest speakers. We work with leading institutions such as the Tate, the BBC, the NHS and the British Film Institute to give you a vibrant, inspirational learning experience.

WORLD-LEADING FINANCIAL CENTRE AND BUSINESS HUB

RICH HERITAGE WITH WORLD-CLASS MUSEUMS AND GALLERIES

GLOBAL CENTRE FOR ARTS, MUSIC AND CREATIVE INDUSTRIES

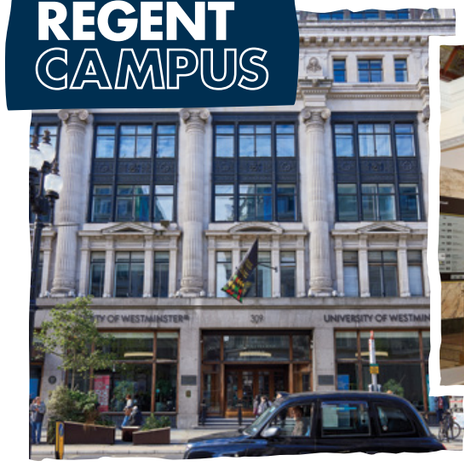

EASY TRAVEL THROUGHOUT THE UK AND EUROPE

OUR CAMPUSES AND FACILITIES

Three of our campuses are in the heart of the city and our Harrow Campus in north-west London is only 25 minutes away by Underground (metro) from central London.

REGENT CAMPUS

Little Titchfield Street Site

HARROW CAMPUS

Our innovative learning and lecture spaces include:

- purpose-built art, design, photography, film and TV studios
- our historic Regent Street Cinema
- industry-standard Broadcast Suite and Emerging Media Space
- world-class audio recording studios
- state-of-the-art scientific and specialist laboratories including cyber security, forensics, immersive development and gaming labs
- dedicated, modern architecture studios
- a vibrant, fully equipped, 50-seater arts space

We are home to one of the largest single-site Bloomberg terminal installations in the UK. Students can also access the cutting-edge Creative and Advanced Technologies Lab with 3D printers and laser cutters. A new Immersive Experience Lab is opening soon, providing an immersive space for simulations, virtual project work, sustainability modelling, and interactive marketing or finance experiences.

When you are ready to relax there are cafes and coffee shops, gyms, a sports ground, prayer and quiet rooms. The University of Westminster Students' Union organises everything from club nights to sports, networking and social events for you to get involved, develop new skills and meet friends.

CAVENDISH CAMPUS

STEP THROUGH INTO ZONE 29

The home of student career and enterprise success

Zone29 is our new flagship destination for enterprise and career success. It is a vibrant, inclusive, physical and digital space that connects you with the world of business and the wider community. Located next to our Marylebone Campus, the nine-storey building has collaborative workspaces, meeting rooms, networking areas and cutting-edge digital spaces such as podcast and digital production studios.

Zone29 is a place for students and graduates to build career skills, develop business ideas, meet employers and prepare for the future with confidence.

Step up and step in

Whether you're starting your career, changing direction, progressing to the next level, or starting your own business, Zone29 gives you the support and resources to achieve your goals during your studies and for up to three years after you graduate. Zone29 is your gateway to all Westminster's career opportunities, including job listings, work experience or guidance on your next steps after graduation.

Get career ready

We offer tailored support to help you plan your career including:

- one-to-one appointments
- interview coaching
- help to find a mentor
- feedback on CVs and applications

Find a job or gain experience

We can help you to find a job, work experience or a placement in the UK or overseas. You'll also have opportunities to attend networking events, industry-specific talks and careers fairs. We will help you apply for volunteering and part-time roles that build confidence, enhance your skills and fit around your studies.

Start or grow your own business

Access our expert support to develop your entrepreneurial skills, start a business or set out as a freelancer. We provide the tools, connections and guidance to build confidence and foster a winning mindset. We're proud that so many of our students have gone on to build successful businesses.

Support for international students

We offer dedicated resources to help international students succeed in the UK and global job markets.

"The WeNetwork scheme provided valuable guidance and funding for developing and launching my business ideas."

GARETH BOWEN
Studied Sport and Exercise Nutrition MSc

ZONE 29 | UNIVERSITY OF WESTMINSTER

ZONE 29 CONNECTING WITH BUSINESS

Our strong ties with the business community shape our courses to give you the skills and experience employers need in London and beyond. Many courses are professionally accredited and include guest speakers, visits to organisations in the UK and abroad and the opportunity to work on live briefs set by businesses. Our academics also collaborate with organisations to deliver cutting-edge research and innovation projects.

See research pages 27–30.

Build your experience

We offer a range of programmes to develop your skills and strengthen your CV to help you stand out:

- Build your CV and develop essential interpersonal skills. Each activity earns points towards the Westminster Award to recognise your achievement.
- Meet employers and members of professional bodies at employer networking events.
- Gain career insights from alumni working in a variety of roles and industries in the UK by taking part in our Westminster Working Cultures programme.
- Unlock your entrepreneurial skills with support from our Westminster Enterprise Network (WeNetwork) to start a business or explore self-employment.

Stay connected after graduation

Your connection to Westminster does not end at graduation. As part of our vibrant alumni community, you can continue to access Zone29 services and enjoy a range of benefits including:

- career support for up to three years
- discounts on further study
- networking and social events online and at Zone29 in central London

Stay engaged and make the most of opportunities to connect with other graduates, businesses and the wider community.

Continuing Professional Development (CPD)

As an accredited CPD provider, we offer flexible short courses designed to help you continue to develop your professional skills, strengthen your career prospects and stay ahead in a fast-evolving job market. Delivered online, on campus or at your workplace, our courses are designed to fit around your schedule and meet your needs at any stage of your career.

ZONE 29 | UNIVERSITY OF WESTMINSTER

TAKE THE NEXT STEP **TOWARDS YOUR CAREER**

Hear from our students as they share how their experience at Westminster is helping them build skills, gain real-world insight and take the next step in their careers.

The most valuable part of my studies during my degree has been the chance to take my learning opportunities and put them into real-life scenarios. I was able to go on trips to workplaces and business members' clubs and that gave me the opportunity to see how my learning would actually be put into practice.

Also, the networking opportunities surrounding the societies stood out. I took on the role of Vice President of the Fashion Society, which was a great opportunity to meet other students who shared an interest in fashion.

BAQUER MISBAH
Studied Marketing Management MA

My favourite part of my course is the practical application of what I'm learning in relation to the career prospects in the job market right now. I have access to the Bloomberg Financial Markets Suites and am developing software and technical skills.

One of the most important opportunities is the career mentoring programme at the University of Westminster. I was assigned a career mentor from industry, and it helped me understand what kind of work was expected out there after I graduate.

SUBHALAKSHMI AKKINAPALLI
Studied Finance and Accounting MSc

With support from Westminster, I secured a placement with a sustainable beauty company, where I gained valuable real-world experience by independently designing and building a data dashboard from scratch. The experience strengthened my problem-solving, communication and project management skills, boosted my confidence as a data analyst and software developer, and prepared me for the next step in my career. My advice to new students is to make the most of every opportunity available at Westminster, both inside and outside the classroom, as they can have a real impact on your personal and professional development.

TIANA BETTINSON
Studied Data Science and Analytics MSc

SUPPORTING YOU TO SUCCEED

We're committed to supporting you at every step of your journey. Whether you are joining us from overseas or returning to study, our Student Centre and your academic personal tutor will help you to succeed.

As a full-time student you will be assigned an academic personal tutor, who will support your academic and personal development. You can speak to them about any aspect of your studies, and they can connect you with specialist support services when needed.

Learning support
You will have access to a range of academic support designed to help you develop the skills you need to succeed at postgraduate level. This includes practical courses and tutorials, available online and in person, covering essay and report writing, research methods, referencing and effective use of library resources.

Digital skills
Gain in-demand digital skills through free, high-quality online courses. Topics include video content creation, building your professional online presence on LinkedIn and understanding emerging technologies such as artificial intelligence.

Libraries and resources
Our libraries provide access to extensive collections of books, journals and digital resources. Our expert teams are on hand to help you develop key academic skills, including research, referencing and study techniques. The University is also home to the renowned Westminster Menswear Archive, a world-class collection dedicated to the study of menswear design.

Wellbeing and health services
Our trained counsellors and advisers provide confidential support for your mental, physical and emotional health. Services include counselling, mental health first aid and referrals to external specialist services where appropriate.

Disability support
We're committed to creating an inclusive learning environment. If you have a disability or long-term condition, our specialist advisers can provide tailored adjustments, including assistive technology, access to facilities and alternative assessment arrangements.

Faith and spirituality
Open to students of all faiths and none, we offer welcoming and compassionate spaces for reflection and to receive confidential support. Prayer and quiet contemplation rooms are available across our campuses.

Sport and leisure
Getting involved in sport and student activities is a great way to stay active, meet new people and build new skills. The University of Westminster Students' Union runs over 100 clubs and societies, which are all free to join.

Whether you're new to sport or compete at a high level, we invite students to take part in free sports clubs and fitness classes at our well-equipped gyms and leisure facilities.

Accommodation
We offer a range of student accommodation options with modern facilities in supportive communities. Our team can help you find a place in University halls or provide guidance on private housing, including advice on tenancy agreements. We recommend applying early to secure your preferred option.

Please visit the website for information:
westminster.ac.uk/accommodation

Financial support
Managing your finances is an important part of student life. You will have access to guidance and support to help you budget effectively and make informed financial decisions throughout your studies. Our team provides advice on budgeting and managing living costs. On our website, you will find information on scholarships, bursaries and hardship funding.

For details of our extensive careers support, step into Zone29. See pages 11–14.

For details of our tailored support for international students, see page 21.

Ranked number one in London for Student Support in the Whatuni Student Choice Awards (WUSCAs) 2026, we're committed to supporting you at every step of your student journey.

"Thank goodness for the support assistant in the research methods labs who helped build my confidence with my quantitative skills. I got a distinction for the module in the end!"

ANJALEE CHAKRAVARTY-AGBO
Studied Health Psychology MSc

MEET OUR GRADUATES

Our graduates share how their time at Westminster inspired them to take action, using their skills and experience to make a real difference in communities around the world.

Christiana won our Recent Graduate Award 2025, recognising her outstanding contributions across the global public health and nutrition sectors. As a Consultant for the Accountability Research Centre at the American University, she led research on government-led accountability programmes in Nigeria. She managed study design, field research and data analysis, influencing national accountability conversations through policy papers.

Alongside, Christiana served as Executive Director at The Cognito Project, advancing learning for over 43 civil society organisations and leading a school-based nutrition programme. Her consultancy work included contributing to Jhpiego's (John Hopkins Program for International Education in Gynecology and Obstetrics) assessment of Nigeria's Quality of Care Strategy and facilitating regional strategic development for African Activists for Climate Justice.

She has also played a central role in the White Ribbon Alliance's global campaign Midwives' Voices, Midwives' Demands, which has shaped maternal health advocacy globally.

In recognition of her expertise, Christiana was appointed to the Scientific Advisory Committee of the World Public Health Nutrition Conference and the Global Self-Care Learning and Discovery Series.

CHRISTIANA ASALA
Studied Global Public Health Nutrition MSc, 2023

BETTY NAIRUBA
Studied International Development Management MA, 2015

After studying at Westminster, Betty returned to Uganda. As Executive Director of Concern for Neighbors and Community Engagement, she works to make an impact in the lives of marginalised people in local communities.

As a child, Betty experienced first-hand how negative cultural beliefs and a lack of resources can lead to limited options for young people, particularly girls. Concern for Neighbors and Community Empowerment has the philosophy that communities know their problems better than any development worker and also have more viable solutions.

Through the charity initiative, over 1,000 adolescent mothers have been supported to return and stay in school, and 500 disabled women and teenage mothers have been empowered economically through vocational and entrepreneurship skills training. This has enabled them to realise their potential and participate in community development.

PAUL NEWMAN MBE
Studied Business Administration MBA, 2003

Paul is a purpose-driven leader who has transformed the lives of thousands through his work in health and social care. Paul has led national organisations with vision, compassion and commercial acumen, most recently as Chief Executive of Greensleeves Care, one of the UK's top-rated care charities for older people.

In 2025, Paul was awarded an MBE by His Majesty King Charles III in recognition of his exceptional contribution at both national and international levels. He has championed innovation in dementia care, digital transformation, workforce development and sustainability, while shaping global standards for inclusive ageing through his leadership at the UN-affiliated International Organization for Standardization (ISO).

Paul has also served as an unpaid board member of numerous national and local organisations, including King's College Hospital Charity, the National Care Forum and the Council of Deans of Health, always giving back to the communities he serves.

GLOBAL UNIVERSITY, LONDON ENERGY

Welcome to the University of Westminster, a global university in the heart of London, with a history dating back to 1838. Each year, students from over 160 countries join our diverse and inclusive community, studying career-focused degrees while living in one of the world's leading student cities. And, as a Westminster graduate, you will join a worldwide network of over 200,000 alumni.

Support for international students

We offer comprehensive support tailored to international students to help you settle in, succeed in your studies and feel at home. This includes:

- pre-departure and offer holder events to help you prepare for life in the UK
- access to an exclusive online platform to connect with other offer holders from around the world before you arrive
- assistance with finding University accommodation or private housing
- dedicated enrolment guidance and student support services
- welcome events and social activities for international students to meet staff and other students
- student societies representing diverse nationalities and interests
- access to an academic personal tutor, academic and skills support and study resources, wellbeing and counselling services to support your mental health

We also offer courses in study skills and academic English, along with online and on-campus pre-sessional English courses to improve your language skills before you arrive. To find out more, visit **westminster.ac.uk/international/english-language-support**

Zone29 Careers and Enterprise Success

At Zone29 you will find specialist careers support and resources, including careers fairs, mentoring programmes and networking opportunities to help prepare you for your future career. Read more about Zone29 on pages 11–14.

Scholarships and discounts

We offer a range of postgraduate scholarships for home and international students. Westminster alumni may also be eligible for a 20% tuition fee discount on Master's degrees and selected short courses. Alumni applying for research degrees may be eligible for a tuition fee discount of 20% for home alumni or 15% international alumni. Terms and eligibility criteria apply.
For details, visit
westminster.ac.uk/study/fees-and-funding

Pre-Master's courses

We partner with Kaplan International Pathways who provide preparatory courses for students needing additional support to meet our entry requirements. These courses are taught at the Kaplan International College London, based in London Bridge, and are designed to enhance your academic knowledge and English language skills. Successful completion guarantees an offer for a place on your chosen postgraduate degree.

To find out more and apply, visit
kaplanpathways.com/universities/university-of-westminster
and for information on alternative Pre-Master's qualifications, visit **westminster.ac.uk/international/university-preparation-courses**

Step up from your Study Abroad Programme

Westminster offers a range of flexible Study Abroad options. If you have completed at least one semester as a Study Abroad or exchange student, you are part of our global alumni community and may be eligible for a 20% discount on selected Master's courses and research degrees. For more information visit **westminster.ac.uk/alumni-discount**

To hear from current international students visit our blog which can be found here at **westminster.ac.uk/international** or follow our social channels.

Finding the right agent

We work with representatives around the world, who can help you apply. For details visit **westminster.ac.uk/international/your-country**

UK AGENT QUALITY FRAMEWORK

EDUCATION THAT WORKS FOR YOU

Our aim is to transform students of all backgrounds into confident graduates, equipped with the skills, knowledge and ambition to make a positive global impact.

We combine practical learning with critical thinking to address real-world challenges with a strong focus on career readiness.

You'll learn by working on live projects which tackle current business and global issues. Informed by research and developed with input from industry, many courses are accredited or recognised by leading professional bodies. Our expert academics and support teams provide flexible study paths with digital skills embedded throughout.

Find a course structure that meets your needs

Postgraduate study offers a range of qualifications, including postgraduate certificates or diplomas, Master's degrees (taught or research), and research degrees such as MPhil or PhD. To gain a Master's degree you complete credit-bearing modules with the opportunity to transfer credits to other courses or institutions. We also offer specialist degrees such as LLM, MBA and MArch. Please visit the website for details.

Full-time study

Courses start in September or January. You can expect to attend lectures or seminars at least two days a week during the academic year (31 weeks). Assessment varies by course but is likely to include coursework and an extended project or dissertation. See the course pages for details.

Part-time study

Daytime or evening classes are available in most subjects. A part-time degree typically takes at least two years with two sessions each week of the academic year alongside six to twelve hours of personal study. Some employers may support study by day release.

Please note that part-time study is not available for students requiring a Student visa.

With professional experience

Some courses include an integrated work placement or internship in the UK or abroad. These full-time degrees are typically completed over two years.

Professional development and short courses

Westminster is an accredited CPD training provider, working with organisations and individuals to develop personal and professional skills. We deliver:

- short, specialist courses in areas such as project management, data analytics and digital marketing strategy
- executive leadership education
- bespoke training tailored to your organisation

Visit **westminster.ac.uk/workforce-development** to learn more.

MEET OUR GRADUATES

Raquel is a video producer and presenter who brings space exploration to life through creative storytelling, reaching tens of millions of viewers worldwide. She developed, produced and hosted the Spacecraft Makers video series, taking audiences behind the scenes with the scientists and engineers building Europa Clipper, NASA's flagship mission to explore Jupiter's icy moon Europa.

She has co-hosted major NASA broadcasts, including the launch of SPHEREx, a space telescope designed to map the origins of the universe, and the landing of the Mars 2020 Perseverance rover. She also served as a correspondent for the DART mission, NASA's first planetary defence test that successfully altered the motion of an asteroid, and for Psyche, a spacecraft travelling to a metal-rich asteroid to help scientists understand how planets form.

In 2024, Raquel received the British Council USA's Study UK Alumni Award for Culture and Creativity, for her contributions to science communication.

RAQUEL VILLANUEVA
Studied Journalism (Broadcast) MA, 2009

Priya is a fashion designer and founder of the award-winning brand Ahluwalia, known for its innovative approach to sustainable menswear. Her work explores her Indian-Nigerian heritage, repurposing vintage and leftover materials to create contemporary designs while supporting ethical production.

Since graduating, Priya has gained international recognition. Her brand received the Queen Elizabeth II Award for British Design and was selected for the prestigious LVMH Prize. She was named in Forbes 30 Under 30 for 2020 and has showcased her designs at the MET Gala.

In collaboration with global technology company Epson, Priya launched Fashion Play, a doll-sized clothing label that reuses textile waste and highlights the environmental impact of the fashion industry. The project uses innovative printing and recycling technologies to reduce water use and transform old textiles into new fibres.

Priya's work demonstrates how creativity and innovation can drive more responsible approaches to fashion and production.

PRIYA AHLUWALIA
Studied Menswear MA, 2018

RESEARCH WITH IMPACT

Building on our pioneering past, colleagues and students come together in our research and knowledge exchange endeavours to find solutions to make a difference for our communities and for the world.

We engage with government, businesses, the public and local communities, disseminating and applying knowledge through collaborating with partners both nationally and internationally.

Our four research communities focus on building knowledge and sparking change in some of the most important areas of human activity. These communities are:

- Arts, Communication and Culture
- Diversity and Inclusion
- Health Innovation and Wellbeing
- Sustainable Cities and the Urban Environment

Our innovative research output is recognised as world-leading, both inside and outside academia – 72% of our research has been deemed to be world-leading (4*) or internationally excellent (3*) according to the most recent Research Excellence Framework (REF 2021).

THE GRADUATE SCHOOL

As a doctoral researcher at Westminster, you will belong to an academic school and research group. But you will also be a member of a much wider community of researchers through our Graduate School – a vibrant, high-quality, inspiring and globally engaged research environment.

Developing the next generation of researchers is a key priority for the University, and our Graduate School is vital to this aim. The School is a thriving home for our doctoral researchers and provides a stimulating Doctoral Researcher Development programme benchmarked to national and international standards.

Through the Graduate School, you can become highly regarded in your field of expertise, both nationally and internationally, and enhance your future professional life and career development.

We will support your development into a confident, highly skilled and well-rounded researcher through:

- a series of tailor-made workshops and specialist skills sessions – the Doctoral Researcher Development programme
- developing connections with subject-leading research experts and dedicated professional service support staff

Our students have an excellent experience. Overall satisfaction was 82% in the Postgraduate Research Experience Survey (PRES 2025), demonstrating our commitment to helping you succeed in your doctoral research.

For more information, visit **westminster.ac.uk/research-degrees**

RESEARCH THAT MAKES A DIFFERENCE

At the University of Westminster, we are passionate about applying our research to real-world challenges and engaging with our communities in creative and inclusive ways. We have a long tradition of nurturing talent. In many cases, our undergraduate students stay to complete their Master's and PhDs, and have been actively supported to develop into leaders in their field, applying their expertise to tackle global challenges and make an impact on society.

Contributing to the biggest imaging project in the world

Professor Louise Thomas, working with Professor Jimmy Bell, Dr Brandon Whitcher and colleagues in Westminster's Research Centre for Optimal Health, is advancing Magnetic Resonance (MR) technology through contributions to the UK Biobank – the world's largest human imaging study.

By analysing MRI scans from 100,000 volunteers, the team has helped transform biomedical research. Their deep-learning methods automate complex image analysis, enabling rapid measurement of organ size, shape and composition in seconds. This breakthrough has accelerated discoveries, including identifying patients at higher risk of heart aneurysm and uncovering links between muscle fat and age-related muscle loss.

Driving collaboration to support asylum seekers and refugees

The University of Westminster's Research Centre on Peripheral Populations (RCPP), led by Professor Lilian Miles and Dr Maria Granados, is bringing together researchers, social enterprises, charities and community organisations to improve support for asylum seekers and refugees in the UK.

In partnership with Social Enterprise UK, the Centre is networking with more than 50 organisations to explore new collaborations and share innovative approaches to addressing inequality, health disparities and social exclusion. Westminster's contributions include a community sport programme supporting over 1,000 people in London, the development of a first-of-its-kind refugee healthcare database, and initiatives to improve support for students from refugee backgrounds.

Promoting road safety, active travel and improved urban planning

Westminster's Active Travel Academy (ATA) conducts research that has influenced transport policy and practice across the UK. Its work informed national and regional decision-making on road-danger reduction, active travel and urban planning, including contributions to the evidence bases of the Department for Transport and Transport for London.

The research supported the implementation of interventions such as Low Traffic Neighbourhoods and School Streets, leading to increased physical activity and wider environmental benefits while reducing road injuries. At the heart of the ATA's work is an abiding commitment to addressing inequity in people's experience of transport and its impacts.

INVEST IN YOUR FUTURE

In a rapidly changing job market, postgraduate study can help you stay ahead, ready to adapt and seize new opportunities. Evidence shows that graduates are more likely to be employed or in further study than non-graduates. They are also more likely to be in highly skilled roles, with earnings that grow more quickly over time and enjoy higher levels of satisfaction.*

At Westminster, postgraduate study enables you to deepen your expertise, develop in-demand skills and build professional networks. Whether you are looking to progress in your current field or change direction, a postgraduate qualification can help you unlock new opportunities and achieve your ambitions.

Funding your degree

Before applying, you need to plan how you are going to support yourself financially during your studies.

Postgraduate Master's loan

Student Finance England (SFE) offers loans, which can be used towards tuition fees or maintenance costs. For more information visit **westminster.ac.uk/postgraduate-student-funding**

Scholarships

We offer scholarships for UK and international students. In most cases you need to apply for the scholarship before the start of the course. For more information visit **westminster.ac.uk/scholarships**

Alumni tuition fee discount

Former students remain part of our global community and enjoy continued benefits, exclusive services and access to Zone29.

Westminster alumni may also be eligible for a 20% discount on tuition fees for selected Master's courses and research degrees. Terms and eligibility criteria apply. For details, visit **westminster.ac.uk/alumni-benefits**

Managing your budget

Before you arrive, research your expected costs and get information to help you plan your budget by attending our informative events. Money-saving tips and student discounts can be found on various websites.

Our careers team will help you find part-time work to supplement your income while you study. We offer financial advice and a number of bursaries for current students.

We are also working to keep costs as low as possible:

- free breakfast and affordable lunches
- free clubs and societies
- free gyms and sports facilities

Consider asking your employer for support or look at what funding is available from charities and trusts. For more information on managing your money visit **westminster.ac.uk/managing-your-money**

*Source: Graduate Labour Market Statistics 2024

ACCOUNTING AND FINANCE

"What truly sets Westminster apart is the access to academics with real-world industry experience who also serve as dedicated mentors."

HEMANTH VALLAMKONDA
International Finance and Banking MSc (now called Finance and Banking MSc)

The global financial services industry is rapidly advancing through technology and digital transformation. To keep pace with these changes, our innovative and challenging courses are developed in close collaboration with employers and professional bodies. Working with industry-leading organisations such as the Chartered Institute of Management Accountants (CIMA) and the Association of Chartered Certified Accountants (ACCA) helps us provide the distinctive skill set you need to meet the demands of tomorrow's job market. The University is also a CFA University Affiliation Program Partner and CISI Education Partner.

Our courses are designed to enhance the value of a Master's academic qualification with professional skills. They draw on the teaching excellence and research expertise of our academic and professionally qualified staff. Additionally, we continue to invest in financial technology resources in our two state-of-the-art Bloomberg Financial Market Suites, giving you the chance to experience technology and data widely adopted by leading global investment banks in the world's major financial centres.

The skills and knowledge gained on our courses will open up a range of opportunities in different accounting and finance careers. These include management, financial accounting and reporting, auditing, stockbroking, private equity, finance and tax consultancy, FinTech, and investment and risk management.

Recent graduates have found employment at organisations including Amazon, Deloitte, Citibank, the Financial Conduct Authority, PricewaterhouseCoopers, Santander, Société Générale and the World Economic Forum.

ARCHITECTURE, INTERIORS AND PLANNING

We foster a collaborative learning environment where collective intelligence shapes an ethical, experimental curriculum that challenges conventional thinking. Our approach balances specialised expertise with broader knowledge, preparing you either for advanced professional practice as an industry expert or innovative research pathways that can lead to postgraduate opportunities and the creation of new knowledge. Our courses empower you to develop distinctive ideas through creative and reflective approaches within your chosen discipline, equipping you to become the change-makers of tomorrow.

Our galleried, daylit architecture and design studios, situated on the upper levels of the Marylebone Campus, offer a vibrant, collaborative studio culture that mirrors professional practice. Our Westminster Creative and Advanced Technologies Laboratory (CAT LAB) combines digital and analogue techniques, enabling innovation with materials, construction and virtual reality.

Our strong links with leading professionals and future employers provide students with valuable networking opportunities and excellent employment prospects. Recent graduates have gone on to successful careers within interior design, architectural practice, planning (public and private sector) and the construction industries.

"I appreciated the regular communication and engagement with the RTPI, which helped strengthen the connection between our studies and the professional field."

ISAAC OLALOKIKI-HASSAN
Urban and Regional Planning MA

Student work clockwise from top: Luke Hickling – MArch, Maxime Draaisma – Urban Design MA, Allison Leacu – Interior Architecture MA, Sara Tranescu – MArch, Cristian Ayala – Interior Architecture MA, Mohammad Kasim – Architecture MA.

ART, DESIGN AND VISUAL CULTURE

Our postgraduate art and design portfolio offers a unique combination of professional practice, creative development, skills enhancement and contextual, specialist and interdisciplinary knowledge.

Our courses have always reflected and influenced the state of the art – right back to 1839. The world's first photography degree was delivered at our predecessor, the Regent Street Polytechnic.

We work with leading professionals and organisations to cultivate new talent and foster original, innovative thinking. You will be exposed to a rich mix of visiting speakers from across the creative sector and can draw upon the skills and expertise of lecturers, other students and links to London's vibrant creative community.

Our graduates go on to a wide range of careers as artists, photographers, curators, designers, academics, writers, digital advertising executives, creative technologists, digital content producers and developers, game designers, new media producers and marketeers, app developers and entrepreneurs.

"With access to feedback and guidance from top-level photography professionals, industry-standard equipment and a strong creative network, I found Westminster to be the ideal environment for deepening my photographic practice and accelerating my artistic career."

BIOLOGICAL AND BIOMEDICAL SCIENCES

At Westminster you will hone your practical and professional skills interacting with our academics who enjoy an international reputation for professional and research activities. With courses informed by our research and in collaboration with national and international institutions, you have the chance to experience the excitement of these fields first-hand, including opportunities to visit world-leading flagship laboratories with state-of-the-art facilities.

We are proud of our contribution to biomedical science and have an active research culture. Our researchers are finding ways to help tackle cancer, liver disease, obesity, diabetes, and neurodegenerative and inflammatory diseases. Our biotechnology research is internationally admired, aiming to exploit biological resources for the development of bio-products and their use for environmental, medical and chemical/biochemical applications.

We teach and research topics at the forefront of industry developments, from the growing relationship between artificial intelligence and healthcare; to exploring environmental sustainability through the lens of data science; to key issues at the forefront of the pharmaceutical science industry.

Graduates have gone on to a variety of careers including research or industry. Some graduates undertake PhD courses or enter careers in research and development or commercial areas such as technical roles or sales in life science and healthcare companies. Those already working in research or healthcare laboratories have gained additional or translational skills, enhancing their current roles.

BUSINESS AND MANAGEMENT

"My choice in the University of Westminster was solidified by the career-focused and practical nature of teaching in this course."

TIFFANY TIPANA DOUK
Human Resource Management MA

Our graduates develop the relevant skills and mindset to respond proactively, creatively and responsibly to challenges in today's rapidly changing international business environment. Our innovative management courses cover operational and strategic aspects, combining rigorous academic study with practical, evidence-based skills.

Each course has been carefully designed to produce creative, skilled and enterprising professionals with the expertise and confidence to build rewarding careers, while having a real impact where they work. You might want to develop your entrepreneurial skills, explore the latest project management techniques, analyse the environmental issues facing companies or manage organisational change. Whatever your business interest, we can support you.

Our team combines strong specialist business experience with the academic qualifications to teach all aspects of applied management, leadership and its associated specialist disciplines.

Our business courses will prepare you to become business leaders and entrepreneurs, or seek employment in SMEs and blue-chip companies in the public, private or third sector.

COMPUTER SCIENCE AND ENGINEERING

"The academic team bring a wealth of industry expertise and mentorship, helping us navigate complex concepts and real-world applications."

ABDUL KARIM
Cyber Security and Forensics MSc

Our specialist postgraduate courses are designed to prepare you for the fast-moving, technology-driven industries.

The Applied Artificial Intelligence MSc is ideal for computing graduates and professionals looking to upskill. The course emphasises real-world AI applications, offering hands-on learning with industry-standard tools, programming languages, key AI libraries and development environments. Optional modules in Applied Computer Vision or Big Data and Cloud Computing allow you to tailor your learning to specific interests. The final project provides the opportunity to solve real-world challenges, enhance your research skills and advance your career in AI-driven sectors.

As our reliance on computers grows, so does our need for cyber security. Our Cyber Security and Forensics MSc, shaped by our strong industry links and active in-house research, offers specialist pathways in cyber security or digital forensics. You'll gain deep insights into modern system threats, data recovery techniques and digital asset protection. Graduates have pursued careers as senior information security officers, cyber security analysts and digital forensics investigators.

Our Software Engineering (Conversion) MSc is designed for non-computing graduates who wish to transition into software engineering. It provides core, practical skills in software development, programming, mobile computing and system design, preparing you for a wide range of roles in the IT industry. You'll gain hands-on experience, while also developing a strong understanding of the theoretical foundations behind the technology.

For Data Science and Informatics courses see page 44.

Campus for all courses:
Cavendish

Applied Artificial Intelligence MSc
Duration: 1 year FT / 2 years PT
Start: September

Cyber Security and Forensics MSc
Duration: 1 year FT / 2 years PT
Start: September and January
This course is accredited by the British Computer Society (BCS), The Chartered Institute for IT for the purposes of partially meeting the academic requirement for registration as a Chartered IT Professional and partially meeting the academic requirement for a Chartered Engineer.

This course is also fully certified by the National Cyber Security Centre (NCSC), which is a sign of national excellence. Students will receive a certificate upon graduation. The NCSC is part of the UK Government's national communications intelligence agency GCHQ.

Software Engineering (Conversion) MSc
Duration: 1 year FT / 2 years PT
Start: September

Our part-time evening Cyber Security and Forensics MSc allows you to study alongside other commitments.

CONSTRUCTION, SURVEYING AND REAL ESTATE

Our professionally focused construction course provides you with the skills to succeed in a workplace centred on the technological and managerial processes involved in the development, post-construction, appraisal and management of buildings.

We have strong links with professional bodies and the industry, ensuring our courses remain aligned with current practice. Highly regarded by students and employers in the UK and internationally, our courses are informed by the latest developments in practice and research.

Our graduates have excellent career prospects, with alumni progressing to senior roles in real estate, consultancy and financial services. Recent graduates have secured roles at CBRE, Mace, Barratt Developments, Savills, Carter Jonas and Grainger.

Construction Project Management MSc
Duration: 1 year FT
Start: September and January
Campus: Marylebone
This course is fully accredited by the Royal Institution of Chartered Surveyors (RICS) and is accredited by the Chartered Institute of Building (CIOB). See website for details.

"Choosing the University of Westminster for my postgraduate studies was a natural progression following the completion of my undergraduate degree in July 2023. The decision was primarily influenced by the exceptional quality of teaching imparted by seasoned professionals within my chosen field during my undergraduate studies."

AMELIA WILSON
Construction Project Management MSc

CRIMINOLOGY

Our Criminology teaching team is at the cutting edge of developments in critical and international criminology and provides an inclusive learning environment for students from all backgrounds. You will benefit from our strong links with London-based non-governmental organisations and prisons, providing a unique insight into the field.

Our Global Criminology course is designed to develop your knowledge and critical understanding of criminology as an interdisciplinary subject that incorporates legal, political, psychological and social scientific approaches to the study of crime, deviance, and criminal and social justice, both nationally and globally. Students may have opportunities to study with prisoners in London and, where operationally feasible, to participate in optional international prison visits.

It will prepare you for a broad range of national and international career opportunities across criminal justice, human rights, victim and offender support, research, policing, and probation and prison services. The academic knowledge and research skills gained by completing the course also put you in a strong position to undertake further research, such as a PhD.

Global Criminology MA
Duration: 1 year FT / 2 years PT
Start: September
Campus: Regent

"Visiting a prison in another country and studying alongside individuals serving their sentences was fascinating. It allowed me to compare prison systems and identify similarities and differences in how prison is experienced."

RENATA SOUZA ALMEIDA
Global Criminology MA

DATA SCIENCE AND INFORMATICS

Our postgraduate course prepares you to become a professional data scientist, architect or analyst who not only understands complex business challenges but can also design, develop and manage the data-driven solutions that today's organisations demand. By exploring critical issues such as data security, privacy and ethics, you'll gain a deeper understanding of how information systems impact society.

The Data Science and Analytics course addresses the increasing demand for expertise in extracting insights from vast amounts of routinely collected data. You'll gain practical skills in machine learning, advanced analytics and statistical methods, equipping you to uncover meaningful patterns and drive data-informed decision-making.

Our teaching is informed by our strong industry connections and supported by active in-house research across areas such as data science and analytics, health and social care modelling, computational intelligence, parallel computing, distributed and intelligent systems, and semantic computing.

Data Science and Analytics MSc
Duration: 1 year FT / 2 years PT
Start: September and January
Campus: Cavendish
This course is accredited by the British Computer Society (BCS), The Chartered Institute for IT for the purposes of partially meeting the academic requirement for registration as a Chartered IT Professional and partially meeting the academic requirement for a Chartered Engineer.

"My course taught me skills in business analytics, data warehousing, web analytics, and machine learning. I thoroughly enjoyed the projects in each module as they were a great way to apply the skills we learnt."

ECONOMICS

Studying economics enables you to understand the key global issues of the day. It provides the tools and techniques for individuals, businesses and governments to analyse and interpret the issues and problems they face.

With a strong research profile, we are particularly respected in the areas of applied research in labour and education economics. Other areas of research strength include macroeconomics, financial econometrics, international economics and development economics, and urban and regional economics.

We pride ourselves on inclusive and innovative approaches to student learning and research-informed teaching. You will gain an in-depth knowledge of the latest theories, practices and key concepts in economics, and will develop the practical skills needed by a working economist.

There are growing opportunities for graduates with a practically focused knowledge of economics to develop careers as professional economists, managers, business analysts or consultants in private, public and third sector organisations.

The skills and knowledge gained with us will open up a range of opportunities to build a career in government or consultancies, as economic analysts, regulatory economists and market analysts. Previous graduates have found employment at organisations such as the International Monetary Fund, Rio de Janeiro Mayor's Office, Shelter (UK housing charity) and the UK Government Economic Service, including Ofcom and Ofgem.

ENGLISH AND CREATIVE WRITING

Our courses place you at the heart of one of the world's most vibrant cultural capitals, engaging with contemporary questions around creativity, technology and AI in literary and cultural practice. Studying in central London means your classroom extends far beyond campus. From galleries and theatres to archives, publishing houses, grassroots cultural spaces and our own performance venues, the city becomes a living laboratory for creative and critical exploration.

You will learn from leading academics alongside acclaimed writers, curators and artists, engaging directly with practitioners at the forefront of contemporary culture. Our courses encourage experimentation across genres, forms and media, from fiction, poetry and life writing to criticism, digital storytelling and interdisciplinary practice, with opportunities to contribute to our in-house publication, The Wells Street Journal.

Through strong partnerships with major UK and international institutions, including Tate, the London Museum and the Smithsonian Institution, students gain valuable opportunities for collaboration, research engagement and professional experience beyond the classroom.

In an era shaped by AI, climate crisis and rapid social transformation, these courses cultivate not only advanced analytical and creative skills, but also the critical agility needed to interpret, navigate and shape the cultural futures ahead.

Graduates are well prepared for a wide range of careers in writing, editing, journalism, publishing, education and the wider creative industries.

FASHION

Westminster has a global reputation for producing highly creative and conscious fashion professionals. To maintain this position, we develop innovative courses that educate and train the next generation of creative industry leaders, apparel manufacturers, entrepreneurs and designers, while deepening their critical understanding of the field.

Through our specialist courses, you'll gain the creative, technical and strategic skills needed to succeed in today's fast-changing landscape.

Sustainability is embedded throughout our curriculum, preparing you to influence industry change. Shared optional modules allow you to tailor your learning to your interests. These modules explore digital innovation, contemporary challenges and professional contexts, while fostering collaborative, cross-disciplinary thinking.

A key resource is the Westminster Menswear Archive, a world-renowned collection of over 3,000 garments and accessories from designers such as Alexander McQueen, Craig Green and Maison Margiela. It offers students hands-on research and design development opportunities, providing insights into material culture, construction and design from historical, technical and conceptual perspectives.

We are proud to celebrate our graduates on internationally recognised industry platforms. Previous opportunities have included London Fashion Week and Men's Fashion Week in Milan – Milano Moda.

Our alumni include acclaimed designers and professionals such as Steven Stokey-Daley (S.S.Daley) and Priya Ahluwalia, both recipients of the LVMH Prize; Roberta Einer; Liam Hodges; Ashley Williams; Stuart Vevers, Creative Director at Coach; and Christopher Bailey, former President and Chief Creative Officer at Burberry.

FILM AND TELEVISION

We offer two distinct and highly sought-after postgraduate courses in Film and Television, which provide prospective students with different and exciting routes to further their careers in these competitive industries.

Our Business of Film MA aims to equip students with essential knowledge and skills in the film industry. The course will prepare you for the challenges faced by the film sector today, build your industry contacts and extend your entrepreneurial skills and commercial acumen. The course embraces creative problem-solving in tandem with business and negotiation skills.

Our Film, Television and Moving Image MA provides a creatively and intellectually inspiring environment in which to develop your authorial voice. Emphasising the transformative potential of the screen sector while generating industry knowledge and skills, it offers creative practice options in screenwriting, nonfiction filmmaking and film programming. The flexible course design enables you to graduate with either a specialised or diverse creative portfolio alongside strong academic and industry research and writing skills.

Both courses are available full-time or part-time, for students looking for roles in film financing, marketing or production. Sustainability is a core focus, with BAFTA Albert certification integrated into the curriculum, preparing you to lead environmentally responsible production practices.

"My course takes a practical, real-world approach and encourages industry networking. Our experienced lecturers make learning relevant and engaging."

ERRIANNE ROJO
Business of Film MA

Business of Film MA
Duration: 1 year FT / 2 years PT
Start: September
Campus: Regent
Delivered with our industry partners the BFI (British Film Institute) and Regent Street Cinema, this course allows students to access guest speakers, networking and select industry placement opportunities.

Film, Television and Moving Image MA
Duration: 1 year FT / 2 years PT
Start: September
Campus: Harrow
Our partnership with The TV Foundation provides career development opportunities for students.

HEALTH

Our courses explore the complex relationships between diet, physical activity, behaviour and health, and examine how evidence-based interventions can prevent disease, reduce inequalities and improve quality of life. Alongside this, you'll consider how data, technology and psychological approaches can be used to design, evaluate and deliver effective health solutions in real-world settings.

Our career-focused courses combine specialist knowledge with practical, applied learning. You will develop skills in research, analysis and intervention design, preparing you to respond to contemporary health challenges at both individual and population levels. Whether your interests lie in health, nutrition, performance, or the use of data and digital innovation in healthcare, you will gain the tools to support evidence-based practice and policy.

Designed to reflect the interdisciplinary nature of modern healthcare, our provision brings together expertise in behavioural science, data analytics and digital health, allowing you to gain insight into how these areas intersect to shape health behaviours, inform policy decisions and improve outcomes across individual, local and global contexts.

Graduates are well prepared for a wide range of careers across the health sector, including roles in health and social care, data analysts, nutritionists, teachers or researchers.

LANGUAGES

"The strong reputation of my programme, both in the UK and globally, combined with the University's extensive alumni network and professional training, has made me feel much more prepared and confident as I step into the job market."

XIN CHEN
Translation and Interpreting MA

In an increasingly global world, our rich portfolio of postgraduate courses seeks to meet the demand for interpersonal and intercultural communication across different languages. Through applied and professional languages, our focus is on languages being both explored and employed.

Our postgraduate courses are delivered by highly skilled professionals. Their practice-led approach is complemented by theory-informed lectures and seminars, taught by academics who are active researchers in the fields of translation studies, linguistics, intercultural communication and language pedagogy.

Our Specialised Translation and Translation and Interpreting courses focus on professional skills, leading directly into careers in the translation and interpreting industry.

The Teaching English to Speakers of Other Languages (TESOL) course provides advanced training in TESOL, with the option to additionally enrol at a CELTA course near the University.

The University of Westminster is a Higher Education Language partner of the Chartered Institute of Linguists and a member of the Institute of Translation and Interpreting; the Conférence Internationale Permanente d'Instituts Universitaires de Traducteurs et Interprètes; the Association of Programmes in Translation and Interpreting Studies, UK and Ireland; Elia Exchange; and the UN MoU Network.

LAW

Our Law School offers a broad and innovative range of postgraduate courses, combining professional insight with the cutting-edge research of our academic staff. You will develop original knowledge and skills which are relevant to a changing world, covering diverse areas of law, ranging from international commercial and corporate law to technology, international law and entertainment law.

Our academic staff are not only active researchers, passionate about their subject; they are also recognised experts called upon to advise government bodies and courts on their specialist areas. As part of our vibrant postgraduate community you will be encouraged to become involved in our research activities.

Class sizes are kept relatively small to ensure that you have a first-class learning experience. The wide range of optional modules offered on our courses allow you to tailor the course to reflect your interests and aspirations. You will also have the opportunity to participate in the student-led (pro bono) Legal Advice Clinic, and a variety of career and subject specialist events throughout the year.

Our graduates have gone on to launch successful careers across a wide range of sectors and organisations, including international organisations, government departments and NGOs in roles including solicitors, barristers and family law mediators, as well as banking and finance lawyers.

MARKETING

"Westminster has given me a practical, hands-on learning experience while opening opportunities to work and grow professionally."

EDUARDO FELIPE PAULINO PINTO
Digital Marketing Management MSc

Businesses need people who can design and manage innovative marketing strategies. Our exciting and contemporary courses will prepare you for success in the marketing world, with the option to focus on digital marketing or data analytics using our specialist facilities.

You might be looking to change career or want to specialise in the fast-changing areas of marketing and marketing communications. Whatever your interest, our courses combine theory with practice in developing the attributes and specialist skills you need to confidently develop your career and respond to the changing business environment. Optional work-based learning modules are available on some courses.

We have strong links with the Chartered Institute of Marketing (CIM), Digital Marketing Institute (DMI), Institute of Data and Marketing (IDM) and the Institute of Practitioners in Advertising (IPA). This is reflected in the high level of guest speakers from industry who regularly contribute to our courses. Our dedicated, multicultural staff bring academic and real-world practitioner expertise to the learning experience and take a proactive approach to inclusivity, diversity and equality.

Our courses will prepare you for a wide variety of roles in business, such as account executive, brand manager, digital marketing executive, founder and CEO, and sales and marketing manager. Recent graduates have found employment in organisations including Adidas, Diageo, IMG Media, M&C Saatchi, McLaren Automotive, MediaCom and Unilever.

MEDIA AND COMMUNICATION

Combining industry focused learning with practical experience, you'll develop specialist knowledge and the professional skills to succeed in today's fast moving media landscape.

Based in London, the UK's media capital, you'll benefit from our strong industry connections, with opportunities to learn from leading organisations, experienced journalists, media professionals and guest speakers. You'll also have access to our state-of-the-art Broadcast Suite, featuring TV studios, podcasting facilities and industry-standard editing suites, where you'll gain hands-on experience through live projects and realistic newsroom simulations that reflect professional broadcast and digital media environments.

Many teaching staff are internationally renowned researchers and members of the University's Communication and Media Research Institute (CAMRI). CAMRI is one of the world's foremost research centres for media and communication studies.

Our graduates go on to succeed in a wide range of careers as journalists, media and digital media practitioners, campaign communicators, editors, academics and entrepreneurs.

Professional bodies accrediting or recognising our courses include:

MUSIC

Our music courses are established and internationally recognised in their respective fields. We continue to develop generations of creative, responsive and critically agile music, audio and media professionals through our progressive approach to delivering these specialist subjects.

We are proud of the success of our graduates. The Audio Production course has produced BAFTA and Grammy Award winners, creative executives, educators, music and audio-visual producers, recording artists, and interactive and film sound designers. Graduates from this course work at the high end of the creative industry, at the BBC, Pinewood, Sony EA, Yamaha, Berklee, Disney, Paramount and Apple.

Our Music Business Management graduates can be found working around the world at the cutting edge of new music enterprises such as YouTube Music, Apple Music, Spotify, Believe, Kobalt, BMG, AEG, PPL, PRS, Ticketmaster and Live Nation, as well as global entertainment powerhouses such as Universal Music Group, Sony Music Entertainment and Warner Music Group.

Audio Production MA
Duration: 1 year FT / 2 years PT
Start: September
Campus: Harrow
This course is accredited by Joint Audio Media Education Support (JAMES).

Music Business Management MA
Duration: 1 year FT / 2 years PT
Start: September
Campus: Harrow and Cavendish

"I've enjoyed how the course combines the creative and commercial sides of the music industry. The lecturers bring valuable industry experience and being in London provides great opportunities to connect with the wider music scene."

POLITICS AND INTERNATIONAL RELATIONS

Recognised for our expertise in this field, we are proud of our diverse student body, inclusive culture and challenging, critical research. We are a vibrant academic community with a central London location and a commitment to enhancing your learning experience through both formal teaching and broader intellectual activities.

We have an international reputation for innovative research in politics and international relations, especially through our renowned Centre for the Study of Democracy, with particular strengths in political and international theory, critical security studies, climate and energy politics, just development, queer politics and decolonial studies. Our staff are active researchers bringing their knowledge and expertise into their teaching on our postgraduate courses, enabling you to engage with contemporary debates and issues at the highest level.

In addition to research-led teaching, we regularly invite external speakers to take part in our well-established series of seminars, expert workshops and conferences. We also enhance learning through opportunities for international engagement and our well-established partnerships with global organisations, such as the International Organization for Migration (IOM), the UN Migration Agency. We support a dynamic student experience through our pioneering Democratic Education Network and strong employability programme, as well as a range of student-led projects and societies.

Graduates work in a variety of roles, including as diplomats, journalists, policy analysts, civil servants, researchers and teachers.

Campus for all courses:
Regent

Diplomacy and Global Politics MA

PSYCHOLOGY

The University of Westminster has a strong reputation for our postgraduate psychology teaching, offering distinctive courses in professionally relevant and contemporary areas. Our supportive, interactive learning environment combines theoretical knowledge with practical skills, allowing students to pursue a wide range of careers.

Courses are delivered by recognised international experts, psychologists and active researchers within a vibrant research culture characterised by collaboration, openness and interdisciplinary approaches. Students can benefit from research-informed teaching that explores the application of psychology across health, wellbeing, digital technologies, organisations and the criminal justice system, with opportunities to engage in real-world practice, work-based learning and applied research.

We focus our teaching on ethical and inclusive practice, critical thinking, professional development and the contemporary issues shaping psychology today, including behavioural change, mental health, neurodiversity and the impact of technology on society and healthcare.

As a graduate, you can expect to progress into professional training and diverse careers across counselling, psychotherapy, health consultancy, behavioural insights, organisational psychology, public health and psychological wellbeing practice. Many graduates also continue towards chartered status and further professional qualifications within psychology and related fields.

Professional bodies accrediting or recognising our courses include:

Business and Organisational Psychology MSc
Duration: 1 year FT / 2 years PT
Start: September and January
Campus: Marylebone
This course is accredited by the Association for Business Psychology (ABP).

TOURISM AND EVENTS MANAGEMENT

We are committed to evolving and innovating our courses to adapt to these dynamic industries. This is evident in our Tourism Management MA and Event Design and Management MA courses. The Tourism Management MA focuses on creating and enhancing the sense of place and visitor experience, taking into account communities, technologies and sustainability. The Event Design and Management MA emphasises the creative design, delivery and experience of modern, engaging events.

The tourism industry has in recent years been one of the largest employers globally, and the events industry has seen significant growth in employment options over the past decade. As the global economy evolves post-pandemic, events and tourism are playing an increasingly important role in drawing visitors back to our cities and also preparing for a carbon-neutral and more sustainable world. Our courses address the climate emergency and consider resilience, disaster planning and regeneration as core principles for the sector.

At Westminster, we remain a leader in the delivery of high-quality tourism and event management courses. Our experienced academics and industry practitioners will help you explore the challenges and opportunities recent events have brought to the sector. By studying in the heart of one of the world's leading tourist destinations, surrounded by world events, you will develop the skills you need to manage tourism or stage events in other host destinations.

Campus for all courses:
Marylebone unless otherwise stated

Event Design and Management MA
Duration: 1 year FT / 2 years PT
Start: September

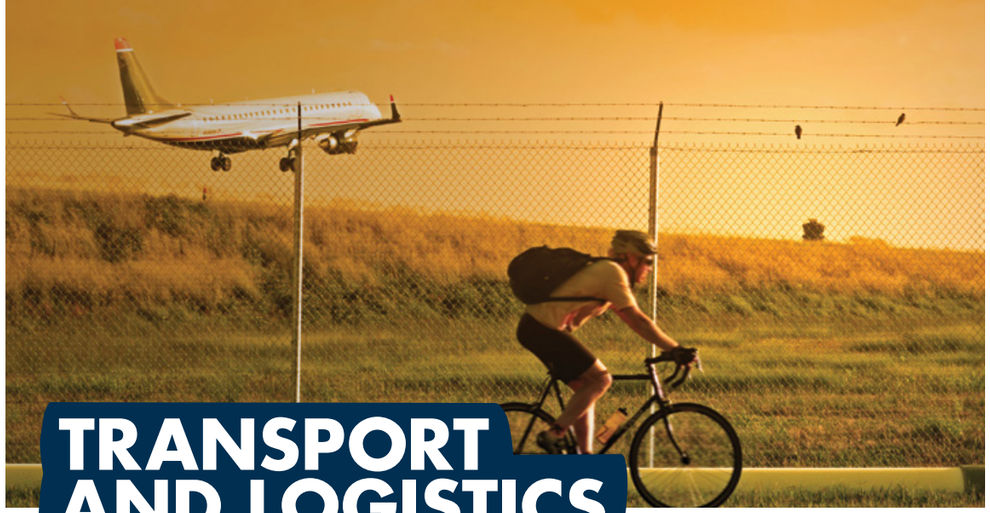

Sports Event Leadership and Management PGCert

TRANSPORT AND LOGISTICS

Highly regarded by students and employers in the UK and internationally, our courses equip you for professional life, planning and managing the future of our transport and logistics systems.

Our academic staff enjoy an international reputation, and our degrees are known for their combination of pure, practice-led and applied approaches. You will develop your own specialist expertise working collaboratively with students from across the globe.

Our freight transport and logistics research group explores sustainability and supply chains efficiency, while our award-winning air traffic management research team is recognised as a leader in Europe. Our research into personal travel has won prizes for its outstanding impact on public policy, and the highly regarded Active Travel Academy's work is directly linked to the transport planning courses.

Graduates have gone on to enjoy a range of careers in sectors including airlines, airport authorities, logistics and supply chain management, transport planning and operations management in a variety of public and private sector organisations and consultancies.

Campus for all courses:
Marylebone

Air Transport Planning and Management MSc
Duration: 1 year FT / 2 years PT via block release
Start: September and January

Transport Planning MSc

ESSENTIAL INFORMATION

We're here to help

Our Course Enquiries Team provides information and advice on a range of topics, including:

- course information
- entry requirements for UK and international students
- the application process
- postgraduate open events
- tuition fees and payments

Chat to our Course Enquiries Team via live chat: **westminster.ac.uk/study**
E: **course-enquiries@westminster.ac.uk**
T: **+44 (0)20 7911 5000** ext **65511**

NOTES FOR APPLICANTS

APPLYING TO WESTMINSTER

Taught Master's courses
Specific entry requirements including English language requirements are listed on the course pages. Also see **westminster.ac.uk/study/english-language-requirements**. If your degree or equivalent qualification is from outside the UK, visit **westminster.ac.uk/international** for information on our requirements.

Apply online by visiting **westminster.ac.uk/postgraduate**. Select your desired course and click Apply to submit your application directly.

Research degrees
MPhil/PhD applications have different procedures. Visit **westminster.ac.uk/research-degrees** for details.

Application deadlines
Courses start in either September or January. See the website for the application deadlines **westminster.ac.uk/study/postgraduate/how-to-apply**

Apply early, especially if you need a visa, are submitting a portfolio or require an interview. Early application is also crucial for scholarship considerations. For information on scholarships visit **westminster.ac.uk/scholarships**

Gaining credit for what you have learnt
Recognition of Prior Experiential Learning (RPEL) recognises knowledge or skills acquired through life or work experience, which have not been formally recognised by an academic or professional certification. If you have relevant experience, you may be eligible for module exemptions through Recognition of Prior Certificated Learning (RPCL) or Recognition of Prior Experiential Learning (RPEL). Visit **westminster.ac.uk/rpcl** for details.

Students with disabilities
Indicate in your application the nature of the disability or long-term health condition and we will contact you to determine the appropriate support package.

Fees
Course fees are stated on the individual postgraduate course pages. Also see **westminster.ac.uk/study/fees-and-funding** for further information.

Indicate in your application if you have previously studied at Westminster as you may be eligible for the alumni discount.

Visas
You may need a visa to study in the UK. You must have accepted an offer of a place and have a Confirmation of Acceptance for Study (CAS) before you apply for your visa.

International students need a Student visa to study for a full-time postgraduate course. You cannot apply for a visa to study part-time. Postgraduate diplomas and certificate qualifications do not allow you to apply for the Graduate Route visa after you complete your course. For comprehensive information, visit **westminster.ac.uk/international/visas-and-advice/visas**

For additional guidance, contact our Course Enquiries Team:
Live chat: **westminster.ac.uk/study**
E: **course-enquiries@westminster.ac.uk**
T: **+44 (0)20 7911 5000** ext **65511**

REPORT AND SUPPORT

The University of Westminster is committed to ensuring that all students can study in a safe and inclusive environment. Our Report and Support platform allows students to make a report if they experience bullying, harassment, discrimination, hate crime or sexual misconduct. You may choose to disclose anonymously or with your contact details. Visit **reportandsupport.westminster.ac.uk**

Our approach to preventing and addressing harassment and sexual misconduct can be found at **westminster.ac.uk/current-students**

ENGLISH LANGUAGE DEVELOPMENT

Pre-sessional English courses
These online and in-person courses are for international students who need to improve language and academic skills to meet the requirements of postgraduate study. Courses include language development and a focus on discipline-specific studies and are available on campus or online. Students have access to our facilities and libraries.

Academic English
We offer academic English modules to help you consolidate and improve your proficiency in academic English. We will determine the right level for you during orientation week. For more information visit **westminster.ac.uk/international/english-language-support**

ACCOMMODATION

Student accommodation
This is available for full-time postgraduate students. Most are single study bedrooms with a shared kitchen and are located within easy reach of our campuses. Prices include all utilities.

Private housing
Options vary widely in price. We provide extensive advice on finding suitable private accommodation. Remember to consider commuting costs when choosing where to live.

Find information on housing and tips on successful accommodation hunting at **westminster.ac.uk/accommodation**

IMPORTANT NOTICE

Course details are accurate at time of publication.
Check our website for the latest course information and any significant changes. We will keep you informed if a course is cancelled. Some modules, internships or placements may be affected by government restrictions.

Visit **westminster.ac.uk/terms-and-conditions** for details.

Data privacy
We take care to ensure the confidentiality of your application information. Your data will be used and stored in accordance with the University's Data Protection Policy.

To request any of your personal information, contact **dpa@westminster.ac.uk**.
